Taylor Frigon Core Growth Fund
Annual Report
November 30, 2023
(Unaudited)

For the year ended November 30, 2023, the Taylor Frigon Core Growth Fund (the "Fund") underperformed the S&P Mid Cap 400® Index, S&P 600 Small Cap Index and the S&P 500® Index (the "S&P 500"). The Fund returned -1.02% whereas its primary benchmark, the S&P Mid Cap 400® Index, returned 1.17%. The Fund's underperformance versus its benchmark for the period was primarily due to the Fund's concentration in small and mid-cap growth companies, which have faced challenges due to the lingering effects of inflation and heightened interest rates.

Performance of the Fund for the period was mixed between a variety of different sectors and industries. The top performing company, Carvana Co., which operates an e-commerce platform for buying and selling used cars, came from the specialty retail industry. Novocure Ltd., an oncology company working on Tumor Treating Fields (TTFields) devices for the treatment of solid tumor cancers, was the worst performer and came from the health care equipment & supplies industry. Other top performers for the year include QuickLogic Corp., a fabless semiconductor manufacturer, MongoDB Inc., a company that offers a database platform for developers, Monolithic Power Systems Inc., a company that produces innovative power solutions for electronic systems, and Symbotic Inc., a company that provides warehouse automation systems. The Fund's weakest performers were similarly diversified. They include Ebix Inc., a company that offers software solutions for the insurance, financial, and healthcare industries, Real Good Food Company Inc., a company that produces healthy alternative frozen meals, Akoustis Technologies Inc., a provider of radio frequency filter products for the mobile wireless device industry, and InMode Ltd., a company that makes minimally invasive aesthetic medical products.

Smaller cap growth stocks have fallen out of favor in the market during the period as many other investors have prioritized "safer" value stocks. We continue to adhere to our philosophy of holding great companies for years through multiple market cycles as we believe that it is dangerously short-sighted to abandon companies with exceptional growth potential during times of uncertainty in an effort to chase "stability." It is our view that innovative, well-managed companies are the most well-equipped to handle whatever challenges arise and ultimately deliver strong performance in the long run, so we do not believe that it is beneficial to trade out of them just because market conditions have become unfavorable. While we do not engage in short-term trading in our investment management process, the performance of our portfolio can periodically be affected by the activity of traders who are overly focused on the quarterly ups and downs of businesses and lose sight of their overall growth trajectory.

We will continue to work diligently to ensure that our portfolio consists of companies capable of overcoming short-term challenges and generating exceptional, sustainable growth in the long term. The Fund remains significantly concentrated in the Information Technology and Healthcare Technology areas as we believe they continue to present substantial growth opportunities.

While underperformance can certainly cause a fair amount of frustration and raise doubts, we remain highly convicted in our investment principles. We believe that investing in businesses with an ownership mentality and adhering to extended time horizons will prove to be a superior approach in the long run when compared to trading in and out of stocks based on economic fluctuations and the ever-changing tides of the market. We are confi-

dent that the companies we have chosen to include in the Taylor Frigon Core Growth Fund will adapt to their evolving environments as they continue to execute their individual growth strategies.

Thank you for your continued support as a shareholder and we look forward to our next update.

Sincerely,

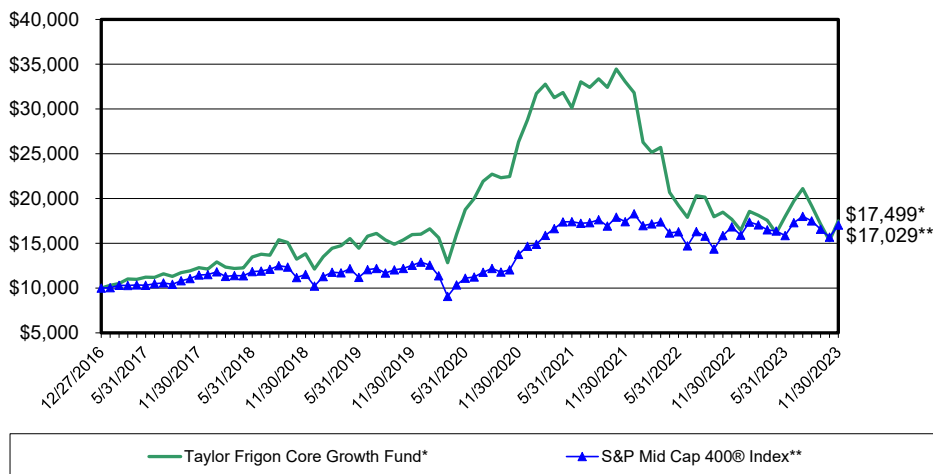

Gerry Frigon
Portfolio Manager

Availability of Quarterly Schedule of Investments

The Fund publicly files its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-PORT. The Fund's Form N-PORT is available on the SEC's website at <http://www.sec.gov>.

Proxy Voting Guidelines

Taylor Frigon Capital Management, LLC, the Fund's investment adviser ("Adviser"), is responsible for exercising the voting rights associated with the securities held by the Fund. A description of the policies and procedures used by the Adviser in fulfilling this responsibility is available without charge on the Fund's website at www.taylorfrigonfunds.com. It is also included in the Fund's Statement of Additional Information, which is available on the SEC's website at <http://www.sec.gov>.

Information regarding how the Fund voted proxies, Form N-PX, relating to portfolio securities during the most recent period ended June 30th, is available without charge, upon request, by calling our toll free number (1-888-897-4821). This information is also available on the SEC's website at <http://www.sec.gov>.

Expense Example (Unaudited)

Shareholders of this Fund incur ongoing costs consisting of management and service fees. Although the Fund charges no sales loads or transaction fees, you will be assessed fees for outgoing wire transfers, returned checks and stop payment orders at prevailing rates charged by Mutual Shareholder Services, LLC, the Fund's transfer agent. IRA accounts will be charged an \$8.00 annual maintenance fee. If shares are redeemed within 90 days or less of purchase from the Fund, the shares are subject to a 2% redemption fee. Additionally, your account will be indirectly subject to the expenses of any underlying funds. The following example is intended to help you understand your ongoing costs of investing in the Fund and to compare these costs with similar costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested in the Fund on June 1, 2023 and held through November 30, 2023.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. In order to estimate the expenses a shareholder paid during the period covered by this report, shareholders can divide their account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6) and then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses paid by a shareholder for the period. Shareholders may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in other funds' shareholder reports.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as redemption fees or the charges assessed by Mutual Shareholder Services, LLC as described above and expenses of any underlying funds. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value <u>June 1, 2023</u>	Ending Account Value <u>November 30, 2023</u>	Expenses Paid During the Period* June 1, 2023 to <u>November 30, 2023</u>
Actual	\$1,000.00	\$972.59	\$7.17
Hypothetical (5% annual return before expenses)	\$1,000.00	\$1,017.80	\$7.33

* Expenses are equal to the Fund's annualized expense ratio of 1.45%, multiplied by the average account value over the period, multiplied by 183/365 (to reflect the one-half year period).

NOTES TO THE FINANCIAL STATEMENTS
TAYLOR FRIGON CORE GROWTH FUND
November 30, 2023

1.) ORGANIZATION

The Taylor Frigon Core Growth Fund (the "Fund") was organized as a diversified series of PFS Funds (the "Trust") on December 7, 2016, and commenced operations on December 27, 2016. The Trust was established under the laws of Massachusetts by an Agreement and Declaration of Trust dated January 13, 2000, which was amended and restated as of January 20, 2011. The Trust is registered as an open-end investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust may offer an unlimited number of shares of beneficial interest in a number of separate series, each series representing a distinct fund with its own investment objectives and policies. As of November 30, 2023, there were thirteen series authorized by the Trust. The Fund's objective is to seek long-term capital appreciation. The investment adviser to the Fund is Taylor Frigon Capital Management, LLC (the "Adviser").

2.) SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 *Financial Services - Investment Companies*. The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The Fund follows the significant accounting policies described in this section.

SECURITY VALUATION

All investments in securities are valued as described in Note 3. The Trust's Board of Trustees ("Board") has designated the Adviser as "Valuation Designee" pursuant to Rule 2a-5 under the 1940 Act.

SHARE VALUATION

The net asset value (the "NAV") is generally calculated as of the close of trading on the New York Stock Exchange (the "Exchange") (normally 4:00 p.m. Eastern time) every day the Exchange is open. The NAV is calculated by taking the total value of the Fund's assets, subtracting its liabilities, and then dividing by the total number of shares outstanding, rounded to the nearest cent. The offering price and redemption price per share is equal to the net asset value per share, except that shares of the Fund are subject to a redemption fee of 2% if redeemed within 90 days or less of purchase. During the fiscal year ended November 30, 2023, proceeds from redemption fees were \$1,676.

FEDERAL INCOME TAXES

The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to shareholders. Therefore, no federal income tax provision is required. It is the Fund's policy to distribute annually, prior to the end of the calendar year, dividends sufficient to satisfy excise tax requirements of the Internal Revenue Code. This Internal Revenue Code requirement may cause an excess of distributions over the book year-end accumulated income. In addition, it is the Fund's policy to distribute annually, after the end of the fiscal year, any remaining net investment income and net realized capital gains.

The Fund recognizes the tax benefits of certain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years. The Fund identifies its major tax jurisdictions as U.S. Federal and State tax authorities; however, the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the fiscal year ended November 30, 2023, the Fund did not incur any interest or penalties.

DISTRIBUTIONS TO SHAREHOLDERS

Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. The differences between book and tax basis are caused primarily by differences in the timing of the recognition of certain components of income, expense, or realized capital gain for federal income tax purposes.

Notes to the Financial Statements - continued

Where such differences are permanent in nature, they are reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, result of operations, or net asset value per share of the Fund.

USE OF ESTIMATES

The financial statements are prepared in accordance with GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

EXPENSES

Expenses incurred by the Trust that do not relate to a specific fund of the Trust are allocated to the individual funds based on each fund's relative net assets or another appropriate basis.

OTHER

The Fund records security transactions based on a trade date for financial reporting purposes. Dividend income is recognized on the ex-dividend date, and interest income, if any, is recognized on an accrual basis. The Fund uses the specific identification method in computing gain or loss on the sale of investment securities. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

3.) INVESTMENT SECURITIES VALUATIONS

The Fund utilizes various methods to measure the fair value of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 - Observable inputs other than quoted prices in active markets included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

VALUATION OF FUND ASSETS

A description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis follows.

Equity securities (common stocks, including ADRs). Equity securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Valuation Designee believes such prices accurately reflect the fair value of such securities. Securities that are traded on any stock exchange or on the NASDAQ over-the-counter market are generally valued by the pricing service at the last quoted sale price. Lacking a last sale price, an equity security is generally valued by the pricing service at its last bid price. Generally, if the security is traded in an active market and is valued at the last sale price, the security is categorized as a level 1 security, and if an equity security is valued by the pricing service at its last bid, it is generally categorized as a level 2 security. When market quotations are not readily avail-

Notes to the Financial Statements - continued

able, when the Valuation Designee determines that the market quotation or the price provided by the pricing service does not accurately reflect the current fair value, or when restricted securities are being valued, such securities are valued as determined in good faith by the Valuation Designee, subject to review of the Board and are categorized in level 2 or level 3, when appropriate.

In accordance with the Trust's good faith pricing guidelines, the Valuation Designee is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable as described above. There is no standard procedure for determining fair value, since fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of an issue of securities being valued by the Valuation Designee would appear to be the amount which the owner might reasonably expect to receive for them upon their current sale. Methods which are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods. The Board maintains responsibilities for the fair value determinations under Rule 2a-5 under the 1940 Act and oversees the Valuation Designee.

The following table summarizes the inputs used to value the Fund's assets measured at fair value as of November 30, 2023:

<u>Valuation Inputs of Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common Stocks	\$27,455,832	\$-	\$-	\$27,455,832
Warrants	—	—	—	—
	<u>\$27,455,832</u>	<u>\$-</u>	<u>\$-</u>	<u>\$27,455,832</u>

The Fund did not hold any Level 3 assets as of the fiscal year ended November 30, 2023.

The Fund did not invest in derivative instruments during the fiscal year ended November 30, 2023.

4.) INVESTMENT ADVISORY AGREEMENT

The Fund has entered into an investment advisory agreement ("Management Agreement") with the Adviser. The Adviser manages the investment portfolio of the Fund, subject to policies adopted by the Trust's Board of Trustees. Under the Management Agreement, the Adviser, at its own expense and without reimbursement from the Trust, furnishes office space and all necessary office facilities, equipment, and executive personnel necessary for managing the Fund and pays the operating expenses of the Fund excluding management fees, brokerage fees and commissions, taxes, borrowing costs (such as (a) interest and (b) dividend expenses on securities sold short), ADR fees, fees and expenses of acquired funds, fees pursuant to Rule 12b-1 distribution plans, and extraordinary or non-recurring expenses. For its services, the Adviser receives an investment management fee equal to 1.00% of the average daily net assets of the Fund.

As a result of the above calculation, for the fiscal year ended November 30, 2023, the Adviser earned management fees totaling \$313,261. At November 30, 2023, the Fund owed the Adviser management fees of \$21,717.

Additionally, the Fund has a Services Agreement with the Adviser (the "Services Agreement"). Under the Services Agreement the Adviser receives an additional fee of 0.45% of the average daily net assets up to \$100 million, and 0.25% of such assets in excess of \$100 million and is obligated to pay the operating expenses of the Fund excluding management fees, brokerage fees and commissions, 12b-1 fees (if any), taxes, borrowing costs (such as (a) interest and (b) dividend expenses on securities sold short), ADR fees, the cost of acquired funds and extraordinary expenses.

For the fiscal year ended November 30, 2023, the Adviser earned services fees of \$140,968. At November 30, 2023, the Fund owed the Adviser services fees of \$9,773.

5.) RELATED PARTY TRANSACTIONS

Certain officers and a Trustee of the Trust are also officers of Premier Fund Solutions, Inc. (the "Administrator"). These individuals receive benefits from the Administrator resulting from administration fees paid to the Administrator of the Fund by the Adviser.

The Trustees who are not interested persons of the Fund were each paid \$1,500, for a total of \$6,000, in Trustees' fees for the fiscal year ended November 30, 2023. These fees were paid by the Adviser.

6.) PURCHASES AND SALES OF SECURITIES

For the fiscal year ended November 30, 2023, purchases and sales of investment securities other than short-term investments and U.S. Government obligations aggregated \$8,318,784 and \$11,666,720, respectively.

7.) CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of that fund, under Section 2(a)(9) of the 1940 Act. As of November 30, 2023, Charles Schwab & Co., Inc. ("Schwab"), for the benefit of its customers, held, in aggregate, 92.95% of the shares in the Fund. The Trust does not know whether any underlying accounts held at Schwab, owned or controlled 25% or more of the voting securities of the Fund.

8.) TAX MATTERS

For Federal income tax purposes, the cost of securities owned at November 30, 2023 was \$29,030,952. At November 30, 2023, the composition of unrealized appreciation (the excess of value over tax cost) and depreciation (the excess of tax cost over value) on a tax basis was as follows:

<u>Appreciation</u>	<u>(Depreciation)</u>	<u>Net Appreciation/(Depreciation)</u>
\$8,234,331	(\$9,809,451)	(\$1,575,120)

The tax character of distributions was as follows:

	<u>Fiscal Year Ended November 30, 2023</u>	<u>Fiscal Year Ended November 30, 2022</u>
Ordinary Income	\$ —	\$ —
Long-term Capital Gain	—	5,473,820
	\$ —	\$ 5,473,820

As of November 30, 2023, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

Other Accumulated Losses	\$ (2,722,296)
Unrealized Depreciation on Investments - Net	(1,575,120)
	\$ (4,297,416)

As of November 30, 2023, the difference between book and tax basis unrealized appreciation was attributed to the tax treatment of passive foreign investment companies ("PFICs") and the deferral of wash sales. Under current tax law, late-year ordinary losses incurred after December 31 of a Fund's fiscal year may be deferred and treated as occurring on the first business day of the following fiscal year for tax purposes. As of November 30, 2023, other accumulated losses included deferred late year ordinary losses of \$391,846, and an available unused short-term capital loss carryforward of \$165,631 with no expiration and long-term capital loss carryforward of \$2,164,819 with no expiration.

For the fiscal year ended November 30, 2023, the following reclassification was primarily attributed to the reclassification of net operating loss.

Paid in Capital	\$ (520,865)
Total Distributable Earnings	520,865

9.) CONCENTRATION OF SECTOR RISK

If a Fund has significant investments in the securities of issuers in industries within a particular sector, any development affecting that sector will have a greater impact on the value of the net assets of the Fund than would be the case if the Fund did not have significant investments in that sector. In addition, this may increase the risk of loss of an investment in the Fund and increase the volatility of the Fund's NAV per share. From time to time, circumstances may affect a particular sector and the companies within such sector. For instance, economic or market factors, regulation or deregulation, and technological or other developments may negatively impact all companies in a particular sector and therefore the value of a Fund's portfolio will be adversely affected. As of November 30, 2023, the Fund had 57.25% of the value of its net assets invested in stocks within the Information Technology sector.

10.) CASH – CONCENTRATION IN UNINSURED ACCOUNT

For cash management purposes, the Fund may concentrate cash with the Fund's custodian. This may result in cash balances exceeding the Federal Deposit Insurance Corporation ("FDIC") insur-

ance limits. As of November 30, 2023, the Fund held \$527,535 in cash at US Bank, N. A., exceeding the FDIC insurance limit of \$250,000.

11.) SUBSEQUENT EVENTS

Subsequent events after the date of the Statement of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has concluded that there are no events requiring adjustment or disclosure in the financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Taylor Frigon Core Growth Fund and
Board of Trustees of PFS Funds

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Taylor Frigon Core Growth Fund (the "Fund"), a series of PFS Funds, as of November 30, 2023, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the related notes, and the financial highlights for each of the five years in the period then ended (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of November 30, 2023, the results of its operations for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of November 30, 2023, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund's auditor since 2016.
