DESCRIPTION OF THE TRUST AND THE FUND

Taylor Frigon Core Growth Fund (the "Fund") was organized as a diversified series of PFS Funds (the "Trust"), on December 7, 2016, and commenced operations on December 27, 2016. The Trust is an open-end investment company established under the laws of Massachusetts by an Agreement and Declaration of Trust dated January 13, 2000, as amended on January 20, 2011 (the "Trust Agreement"). The Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of multiple separate and distinct portfolio series the assets and liabilities of which are separate and distinct from the assets and liabilities of the other series portfolios of the Trust. Each share of the Fund represents an equal proportionate interest in the Fund with each other share of the Fund and is entitled to a proportionate interest in the dividends and distributions from the Fund. The shares of the Fund do not have any preemptive rights. The investment adviser to the Fund is Taylor Frigon Capital Management, LLC (the "Adviser").

Upon termination of any Fund, whether pursuant to liquidation of the Trust or otherwise, shareholders of the Fund are entitled to share pro rata in the net assets of the Fund available for distribution to shareholders. The assets received by the Fund for the issue or sale of its shares and all income, earnings, profits, losses and proceeds therefrom, subject only to the rights of creditors, are allocated to, and constitute the underlying assets of, the Fund. The underlying assets are segregated and are charged with the expenses with respect to the Fund and with a share of the general expenses of the Trust. Any general expenses of the Trust that are not readily identifiable as belonging to a particular Fund are allocated by or under the direction of the Trustees in such manner as the Trustees determine to be fair and equitable. While the expenses of the Trust are allocated to the separate books of account of the Fund, certain expenses may be legally chargeable against the assets of the Fund.

The Trustees may also, without shareholder approval, establish one or more additional separate portfolios for investments in the Trust. Shareholders' investments in such an additional portfolio would be evidenced by a separate series of shares (i.e., a new "Fund"). The Trust Agreement provides for the perpetual existence of the Trust and the Fund. The Fund, however, may be terminated at any time by vote of at least two-thirds of the outstanding shares of the Fund or by the Trustees upon notice to shareholders. The Trust Agreement also provides that the Trustees may also terminate the Trust upon written notice to the shareholders, and that shareholders holding at least two-thirds of the Trust's outstanding shares may terminate the Trust.

For information concerning the purchase and redemption of shares of the Fund, see "Purchase and Sale of Fund Shares" in the Prospectus. For a description of the methods used to determine the share price and value of the Fund's assets, see "Pricing of Fund Shares" in the Prospectus and in this Statement of Additional Information.

ADDITIONAL INFORMATION ABOUT FUND INVESTMENTS AND RISK CONSIDERATIONS

This section contains a discussion of some of the investments the Fund may make and some of the techniques it may use.

A. **Equity Securities.** The Fund may invest in equity securities such as common stock, preferred stock, convertible securities, rights and warrants. Common stocks, the most familiar type, represent an equity (ownership) interest in a corporation. Warrants are options to purchase equity securities at a specified price for a specific time period. Rights are similar to warrants, but normally have a short duration and are distributed by the issuer to its shareholders. Although equity securities have a history of long-term growth in value, their prices fluctuate based on changes in a company's financial condition and on overall market and economic conditions.

Equity securities also include exchange traded funds ("ETFs"). Many ETFs are designed to track the performance of an index or other benchmark measurement that, in turn, tracks the performance of the markets generally, specific market segments or sectors within the markets. To the extent the Fund invests in a product that tracks a market segment or sector, the Fund is subject to the risks associated with that market segment or sector. When the Fund invests in ETFs or other investment companies, it will indirectly bear its proportionate share of any fees and expenses payable directly by the investment company.

Many ETFs are organized as investment companies under the Investment Company Act of 1940, as amended. Investments in the securities of other investment companies, including investments in ETFs and closed-end funds, may involve duplication of advisory fees and certain other expenses. By investing in another investment company, a Fund becomes a shareholder of that investment company. As a result, the Fund's shareholders indirectly will bear the Fund's proportionate share of the fees and expenses paid by shareholders of the other investment company, in addition to the fees and expenses the Fund's shareholders directly bear in connection with the Fund's own operations.

Section 12(d)(1)(A) of the 1940 Act provides that a fund may not purchase or otherwise acquire the securities of other investment companies if, as a result of such purchase or acquisition, it would own: (i) more than 3% of the total outstanding voting stock of the acquired investment company; (ii) securities issued by any one investment company having a value in excess of 5% of the fund's total assets; or (iii) securities issued by all investment companies having an aggregate value in excess of 10% of the fund's total assets. These limitations are subject to certain statutory and regulatory exemptions including Rule 12d1-4 under the 1940 Act, which permits the Fund to invest in other investment companies beyond the statutory limits, subject to certain conditions. Among other conditions, Rule 12d1-4 prohibits a fund from acquiring control of another investment company (other than an investment company in the same group of investment companies), including by acquiring more than 25% of its voting securities. In addition, Rule 12d1-4 imposes certain voting requirements when a fund's ownership of another investment company exceeds particular thresholds. If shares of a fund are acquired by another investment company, the "acquired" fund may not purchase or otherwise acquire the securities of an investment company or private fund if immediately after such purchase or acquisition, the securities of investment companies and private funds owned by that acquired fund have an aggregate value in excess of 10 percent of the value of the total assets of the fund, subject to certain exceptions. These restrictions may limit the Fund's ability to invest in other investment companies to the extent desired. In addition, other unaffiliated investment companies may impose other investment limitations or redemption restrictions which may also limit the Fund's flexibility with respect to making investments in those unaffiliated investment companies. The Fund has adopted policies and procedures designed to comply with the requirements of Rule 12d1-4 and the Fund intends to follow such policies and procedures when investing in other investment companies.

B. Foreign Securities. The Fund may invest in foreign equity and fixed income securities. Equity securities include American Depositary Receipts ("ADRs") and ETFs that hold foreign securities. ADRs are certificates evidencing ownership of shares of a foreign-based issuer held in trust by a bank or similar financial institution. They are alternatives to the direct purchase of the underlying securities in their national markets and currencies. ADRs are subject to risks similar to those associated with direct investment in foreign securities.

Foreign investments can involve significant risks in addition to the risks inherent in U.S. investments. The value of securities denominated in or indexed to foreign currencies, and of dividends and interest from such securities, can change significantly when foreign currencies strengthen or weaken relative to the U.S. dollar. Foreign securities markets generally have less trading volume and less liquidity than U.S. markets, and prices on some foreign markets can be highly volatile. Many foreign countries lack uniform accounting and disclosure standards comparable to those applicable to U.S. companies, and it may be more difficult to obtain reliable information regarding an issuer's financial condition and operations. In addition, the costs of foreign investing, including withholding taxes, brokerage commissions, and custodial costs, generally are higher than for U.S. investments.

Foreign markets may offer less protection to investors than U.S. markets. Foreign issuers, brokers, and securities markets may be subject to less government supervision. Foreign security trading practices, including those involving the release of assets in advance of payment, may invoke increased risks in the event of a failed trade or the insolvency of a broker-dealer, and may involve substantial delays. It also may be difficult to enforce legal rights in foreign countries.

Investing abroad also involves different political and economic risks. Foreign investments may be affected by actions of foreign governments adverse to the interests of U.S. investors, including the possibility of expropriation or nationalization of assets, confiscatory taxation, restrictions on U.S. investment or on the ability to repatriate assets or convert currency into U.S. dollars, or other government intervention. There may be a greater possibility of default by foreign governments or foreign government-sponsored enterprises. Investments

in foreign countries also involve a risk of local political, economic or social instability, military action or unrest, or adverse diplomatic developments. There is no assurance that an adviser will be able to anticipate or counter these potential events and their impacts on the Fund's share price.

The considerations noted above generally are intensified for investments in developing and emerging market countries. These countries may have relatively unstable governments, economies based on only a few industries and securities markets that trade a small number of securities.

C. Illiquid Investments. In accordance with Rule 22e-4 under the 1940 Act (the "Liquidity Rule"), the Fund may invest up to 15% of its net assets in "illiquid investments." For these purposes, "illiquid investments" are investments that cannot reasonably be expected to be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment.

The Fund must classify each portfolio investment at least monthly into one of four liquidity categories (highly liquid, moderately liquid, less liquid and illiquid), which are defined pursuant to the Liquidity Rule. Such classification is to be made using information obtained after reasonable inquiry and taking into account relevant market, trading and investment-specific considerations. Moreover, in making such classification determinations, the Fund determines whether trading varying portions of a position in a particular portfolio investment or asset class, in sizes that the Fund would reasonably anticipate trading, is reasonably expected to significantly affect its liquidity, and if so, the Fund takes this determination into account when classifying the liquidity of that investment. The Fund may be assisted in classification determinations by one or more third-party service providers. Investments classified according to this process as "illiquid investments" are those subject to the 15% limit on illiquid investments.

D. U.S. Government Securities. U.S. government securities are high-quality debt securities issued or guaranteed by the U.S. Treasury or by an agency or instrumentality of the U.S. government. Not all U.S. government securities are backed by the full faith and credit of, or guaranteed by the United States Treasury. For example, securities issued by the Farm Credit Banks or by the Federal National Mortgage Association are supported by the instrumentality's right to borrow money from the U.S. Treasury under certain circumstances. Moreover, securities issued by other agencies or instrumentalities are supported only by the credit of the entity that issued them.

E. Corporate Debt Securities. Corporate debt securities are long and short-term debt obligations issued by companies (such as publicly issued and privately placed bonds, notes and commercial paper). The Adviser considers corporate debt securities to be of investment grade quality if they are rated BBB or higher by S&P or Baa or higher by Moody's, or if unrated, determined by the Adviser to be of comparable quality. Investment grade debt securities generally have adequate to strong protection of principal and interest payments. In the lower end of this category, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal than in higher rated categories.

F. Fixed Income Securities. The Fund may invest in all types of U.S. and non-U.S. fixed income securities, including when-issued, delayed delivery, or forward commitment basis. Fixed income securities are subject to credit risk and interest rate risk. Credit risk is the risk that the Fund could lose money if an issuer of a fixed income security cannot meet its financial obligations or goes bankrupt. Interest rate risk is the risk that the Fund's investments in fixed income securities may fall when interest rates rise.

Investments in high-yield bonds (also known as "junk bonds") are considered to be more speculative than higher quality fixed income securities. They are more susceptible to credit risk than investment-grade securities, especially during periods of economic uncertainty or economic downturns. The value of lower quality securities is subject to greater volatility and are generally more dependent on the ability of the issuer to meet interest and principal payments than higher quality securities. Issuers of high-yield securities may not be as strong financially as those issuing bonds with higher credit ratings.

G. Financial Services Industry Obligations. The Fund may invest in each of the following obligations of the financial services industry:

(1) Certificate of Deposit. Certificates of deposit are negotiable certificates evidencing the indebtedness of a commercial bank or a savings and loan association to repay funds deposited with it for a definite period of time (usually from fourteen days to one year) at a stated or variable interest rate.

(2) Time Deposits. Time deposits are non-negotiable deposits maintained in a banking institution or a savings and loan association for a specified period of time at a stated interest rate.

(3) Bankers' Acceptances. Bankers' acceptances are credit instruments evidencing the obligation of a bank to pay a draft which has been drawn on it by a customer, which instruments reflect the obligation both of the bank and of the drawer to pay the face amount of the instrument upon maturity.

H. Repurchase Agreements. The Fund may invest in repurchase agreements fully collateralized by obligations issued by the U.S. government or agencies of the U.S. government ("U.S. Government Obligations"). A repurchase agreement is a short-term investment in which the purchaser (i.e., a Fund) acquires ownership of a U.S. Government Obligation (which may be of any maturity) and the seller agrees to repurchase the obligation at a future time at a set price, thereby determining the yield during the purchaser's holding period (usually not more than 7 days from the date of purchase). Any repurchase transaction in which a Fund engages will require full collateralization of the seller's obligation during the entire term of the repurchase agreement. In the event of a bankruptcy or other default of the seller, a Fund could experience both delays in liquidating the underlying security and losses in value. However, the Fund intends to enter into repurchase agreements only with the custodian, other banks with assets of \$1 billion or more and registered securities dealers determined by the Adviser to be creditworthy. The Adviser monitors the creditworthiness of the banks and securities dealers with which a Fund engages in repurchase transactions.

I. Borrowing. The Fund is permitted to borrow money up to one-third of the value of its total assets. Borrowing is a speculative technique that increases both investment opportunity and a Fund's ability to achieve greater diversification. However, it also increases investment risk. Because the Fund's investments will fluctuate in value, whereas the interest obligations on borrowed funds may be fixed, during times of borrowing, the Fund's net asset value may tend to increase more when its investments increase in value, and decrease more when its investments decrease in value. In addition, interest costs on borrowings may fluctuate with changing market interest rates and may partially offset or exceed the return earned on the borrowed funds. Also, during times of borrowing under adverse market conditions, the Fund might have to sell portfolio securities to meet interest or principal payments at a time when fundamental investment considerations would not favor such sales.

J. Securities Lending. The Fund may make long and short-term loans of its portfolio securities to (in an amount up to 33 1/3% of Fund assets) parties such as broker-dealers, banks, or institutional investors. Securities lending allows a Fund to retain ownership of the securities loaned and, at the same time, to earn additional income. Since there may be delays in the recovery of loaned securities, or even a loss of rights in collateral supplied, should the borrower fail financially, loans will be made only to parties whose creditworthiness has been reviewed and deemed satisfactory by the Adviser. Furthermore, loans will only be made if, in the judgment of the Adviser, the consideration to be earned from such loans would justify the risk.

The Adviser understands that it is the current view of the staff of the Securities and Exchange Commission (the "SEC") that a Fund may engage in loan transactions only under the following conditions: (1) a Fund must receive 100% collateral in the form of cash, cash equivalents (e.g., U.S. Treasury bills or notes) or other high grade liquid debt instruments from the borrower; (2) the borrower must increase the collateral whenever the market value of the securities loaned (determined on a daily basis) rises above the value of the collateral; (3) after giving notice, the Fund must be able to terminate the loan at any time; (4) the Fund must receive reasonable interest on the loan or a flat fee from the borrower, as well as amounts equivalent to any dividends, interest, or other distributions on the securities loaned and to any increase in market value; (5) the Fund may pay only reasonable custodian fees in connection with the loan; and (6) the Trust's Board of Trustees ("Board") must be able to vote proxies on the securities loaned, either by terminating the loan or by entering into an alternative arrangement with the borrower.

Cash received through loan transactions may be invested in any security in which the Fund is authorized to invest. Investing this cash subjects that investment, as well as the security loaned, to market forces (i.e., capital appreciation or depreciation).

K. Mortgage-Backed Securities. The Fund may invest in mortgage-backed securities. Most mortgage-backed securities are pass-through securities, which means that the payments received by the Fund on such securities consist of both principal and interest as the mortgages in the underlying mortgage pool are paid off. The yield on such mortgage-backed securities is influenced by the prepayment experience of the underlying mortgage pool. In periods of declining interest rates, prepayments of the mortgages tend to increase. If the higher-yielding mortgages from the pool are prepaid, the yield on the remaining pool will be reduced and it will be necessary for the Fund to reinvest such prepayment, presumably at a lower interest rate.

L. Options Transactions. The Fund may engage in option transactions involving individual securities and stock indexes. An option involves either: (a) the right or the obligation to buy or sell a specific instrument at a specific price until the expiration date of the option; or (b) the right to receive payments or the obligation to make payments representing the difference between the closing price of a stock index and the exercise price of the option expressed in dollars times a specified multiple until the expiration date of the option. Options are sold (written) on securities and stock indexes. The purchaser of an option on a security pays the seller (the writer) a premium for the right granted but is not obligated to buy or sell the underlying security. The purchaser of an option on a stock index pays the seller a premium for the right granted, and in return the seller of such an option is obligated to make the payment. A writer of an option may terminate the obligation prior to expiration of the option by making an offsetting purchase of an identical option. Options are traded on organized exchanges and in the over-the-counter market.

The purchase and writing of options requires additional skills and techniques beyond normal portfolio management, and involves certain risks. The purchase of options limits a Fund's potential loss to the amount of the premium paid and can afford the Fund the opportunity to profit from favorable movements in the price of an underlying security to a greater extent than if transactions were effected in the security directly. However, the purchase of an option could result in the Fund losing a greater percentage of its investment than if the transaction were effected directly. When the Fund writes a call option, it will receive a premium, but it will give up the opportunity to profit from a price increase in the underlying security above the exercise price as long as its obligation as a writer continues, and it will retain the risk of loss should the price of the security decline. When the Fund writes a put option, it will assume the risk that the price of the underlying security or instrument will fall below the exercise price, in which case the Fund may be required to purchase the security or instrument at a higher price than the market price of the security or instrument. In addition, there can be no assurance that the Fund can effect a closing transaction on a particular option it has written. Further, the total premium paid for any option may be lost if the Fund does not exercise the option or, in the case of over-the-counter options, the writer does not perform its obligations.

M. Real Estate Investment Trusts. The Fund may invest in the securities of real estate investment trusts (REITs). REITs offer investors greater liquidity and diversification than direct ownership of properties. A REIT is a corporation or business trust that invests substantially all of its assets in interests in real estate. Equity REITs are those which purchase or lease land and buildings and generate income primarily from rental income. Equity REITs may also realize capital gains (or losses) when selling property that has appreciated (or depreciated) in value. Mortgage REITs are those that invest in real estate mortgages and generate income primarily from interest payments on mortgage loans. Hybrid REITs generally invest in both real property and mortgages. Unlike corporations, REITs do not pay income taxes if they meet certain IRS requirements. Real estate related equity securities also include those insured by real estate developers, companies with substantial real estate holdings (for investment or as part of their operations), as well as companies whose products and services are directly related to the real estate industry, such as building supply manufacturers, mortgage lenders or mortgage servicing companies. Like any investment in real estate though, a REIT's performance depends on several factors, such as its ability to find tenants, renew leases and finance property purchases and renovations. Other risks associated with REIT investments include the fact that equity and mortgage REITs are dependent upon specialized management skills and are not fully diversified. These characteristics subject REITs to the risks associated with financing a limited number of projects. They are also subject to heavy cash flow dependency, defaults by borrowers, and self-liquidation. Additionally, equity REITs may be affected by any changes in the value of the underlying property owned by the trusts, and mortgage REITs may be affected by the quality of any credit extended. By investing in

REITs indirectly through a Fund, a shareholder bears not only a proportionate share of the expenses of the Fund, but also may indirectly bear similar expenses of some of the REITs in which it invests.

N. Futures and Options on Futures. The Fund may buy and sell stock index futures contracts. A stock index futures contract obligates the seller to deliver (and the buyer to take) an amount of cash equal to a specific dollar amount times the difference between the value of a specific stock index at the close of the last trading day of the contract and the price at which the agreement was made. No physical delivery of the underlying stocks in the index is made. Positions taken in the futures markets are not normally held to maturity, but are liquidated through offsetting transactions that may result in a profit or a loss.

The Fund may sell stock index futures contracts in anticipation of or during a market decline to attempt to offset the decrease in market value of its long positions in equity securities that might otherwise result. When the Fund is not fully invested in stocks and anticipates a significant market advance, it may buy stock index futures in order to gain rapid market exposure that may in part or entirely offset increases in the cost of common stocks that it intends to buy.

The Fund may buy and sell call and put options on stock index futures to hedge against risks of market price movements in its long portfolio and to maintain short positions through transactions other than short sales of securities. The need to hedge against market movement risks will depend on the extent of diversification of the Fund's common stock portfolio and the sensitivity of such investments to factors influencing the stock market as a whole.

Call and put options on stock index futures are similar to options on securities except that, rather than the right to buy and sell stock at a specified price, options on stock index futures give the holder the right to receive cash. Upon exercise of the option, the delivery of the futures position by the writer of the option to the holder of the option will be accompanied by delivery of the accumulated balance in the writer's futures margin account which represents the amount by which the market price of the futures contract, at exercise, exceeds, in the case of a call, or is less than, in case of a put, the exercise price of the option on the futures contract. If an option is exercised on the last trading day before the expiration date of the option, the settlement will be made entirely in cash equal to the difference between the exercise price of the option and the closing price of the futures contract on the expiration date.

To the extent the Fund enters into a futures contract, it will deposit with a futures commission merchant an amount equal to a specified percentage of the value of the futures contract (the initial margin), as required by the relevant contract market and futures commission merchant. The futures contract will be marked-to-market daily. Should the value of the Fund's futures position decline, the Fund, if required by law, will pay the futures commission merchant an amount equal to the change in value.

Transactions involving futures contracts and related options carry risk. There is no assurance a liquid secondary market will exist for any particular options or futures contract at any particular time and the Fund may be unable to promptly liquidate unfavorable positions. Consequently, the Fund may have to hold a position until delivery or expiration regardless of change in its value. There is also the risk that there will be imperfect correlation, or even no correlation, between price movements of the investments being hedged and the options or futures used. In addition, the Fund will pay commissions and other costs in connection with such investments.

O. Reverse Repurchase Agreements. In a reverse repurchase agreement, a fund sells a security to another party, such as a bank or a broker-dealer, in return for cash and agrees to repurchase that security at an agreed-upon price and time. The Fund will enter into reverse repurchase agreements with parties whose creditworthiness has been reviewed and found satisfactory by the Adviser. Such transactions may increase fluctuations in the market value of the Fund's assets and may be viewed as a form of leverage.

P. Zero Coupon Bonds. Zero coupon bonds do not make interest payments; instead, they are sold at a discount from their face value and are redeemed at face value when they mature. Because zero coupon bonds do not pay current income, their prices can be more volatile than other types of fixed-income securities when interest rates change. In calculating the Fund's dividend, a portion of the difference between a zero coupon bond's purchase price and its face value is considered income.

Q. Exchange-Traded Notes. The Fund may invest in exchange-traded notes (“ETNs”), which are a type of unsecured, unsubordinated debt security. ETNs combine certain aspects of bonds and ETFs. Similar to ETFs, ETNs are traded on a major exchange (e.g., NYSE) during normal trading hours. However, investors can also hold the ETN until maturity. At maturity, the issuer pays to the investor a cash amount equal to principal amount, subject to the day's index factor. ETN returns are based upon the performance of a market index minus applicable fees. ETNs do not make periodic coupon payments and provide no principal protection. The value of an ETN may be influenced by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in underlying commodities markets, changes in the applicable interest rates, changes in the issuer's credit rating and economic, legal, political, or geographic events that affect the referenced commodity. The value of the ETN may drop due to a downgrade in the issuer's credit rating, despite the underlying index remaining unchanged. ETNs are synthetic instruments in that they do not represent an interest in the ETNs underlying securities. Additionally, because the ETNs are issued by third parties, there is a risk that the party issuing the ETN may default.

R. Master Limited Partnerships. The Fund may invest in equity securities of master limited partnerships (“MLPs”), and their affiliates. An MLP generally has two classes of partners, the general partner and the limited partners. The general partner normally controls the MLP through an equity interest plus units that are subordinated to the common (publicly traded) units for an initial period and then only converting to common if certain financial tests are met. As a motivation for the general partner to successfully manage the MLP and increase cash flows, the terms of most MLPs typically provide that the general partner receives a larger portion of the net income as distributions reach higher target levels. As cash flow grows, the general partner receives a greater interest in the incremental income compared to the interest of limited partners. The general partner's incentive compensation typically increases to up to 50% of incremental income. Nevertheless, the aggregate amount distributed to limited partners will increase as MLP distributions reach higher target levels. Given this incentive structure, the general partner has an incentive to streamline operations and undertake acquisitions and growth projects in order to increase distributions to all partners.

MLP common units represent an equity ownership interest in a partnership, providing limited voting rights and entitling the holder to a share of the company's success through distributions and/or capital appreciation. Unlike shareholders of a corporation, common unit holders do not elect directors annually and generally have the right to vote only on certain significant events, such as mergers, a sale of substantially all of the assets, removal of the general partner or material amendments to the partnership agreement. MLPs are required by their partnership agreements to distribute a large percentage of their current operating earnings. Common unit holders generally have first right to a minimum quarterly distribution prior to distributions to the convertible subordinated unit holders or the general partner (including incentive distributions). Common unit holders typically have arrearage rights if the minimum quarterly distribution is not met. In the event of liquidation, MLP common unit holders have first right to the partnership's remaining assets after bondholders, other debt holders, and preferred unit holders have been paid in full. MLP common units trade on a national securities exchange or over-the-counter. Some limited liability companies (“LLCs”) may be treated as MLPs for U.S. federal income tax purposes. Similar to MLPs, LLCs typically do not pay U.S. federal income tax at the entity level and are required by their operating agreements to distribute a large percentage of their current operating earnings. In contrast to MLPs, LLCs have no general partner and there are no incentives that entitle management or other unit holders to increased percentages of cash distributions as distributions reach higher target levels. In addition, LLC common unit holders typically have voting rights with respect to the LLC, whereas MLP common units have limited voting rights. MLP common units and other equity securities can be affected by macro-economic and other factors affecting the stock market in general, expectations of interest rates, investor sentiment towards MLPs or a MLP's business sector, changes in a particular issuer's financial condition, or unfavorable or unanticipated poor performance of a particular issuer (in the case of MLPs, generally measured in terms of distributable cash flow). Prices of common units of individual MLPs and other equity securities can also be affected by fundamentals unique to the partnership or company, including earnings power and coverage ratios.

MLP convertible subordinated units are typically issued by MLPs to founders, corporate general partners of MLPs, entities that sell assets to the MLP, and institutional investors, and may be purchased in direct placements from such persons. The purpose of the convertible subordinated units is to increase the likelihood that during the subordination period there will be available cash to be distributed to common unit holders. Convertible subordinated units generally are not entitled to distributions until holders of common units have received specified minimum quarterly distributions, plus any arrearages, and may receive less in distributions upon liquidation. Convertible subordinated unit holders generally are entitled to a minimum quarterly distribution

prior to the payment of incentive distributions to the general partner, but are not entitled to arrearage rights. Therefore, they generally entail greater risk than MLP common units. They are generally convertible automatically into the senior common units of the same issuer at a one-to-one ratio upon the passage of time or the satisfaction of certain financial tests. These units do not trade on a national exchange or over-the-counter, and there is no active market for convertible subordinated units. The value of a convertible security is a function of its worth if converted into the underlying common units. Convertible subordinated units generally have similar voting rights to MLP common units. Because convertible subordinated units generally convert to common units on a one-to-one ratio, the price that the Fund could be expected to pay upon purchase or to realize upon resale is generally tied to the common unit price less a discount. The size of the discount varies depending on a variety of factors including the likelihood of conversion, and the length of time remaining to conversion, and the size of the block purchased.

MLP I-Shares represent an indirect investment in MLP I-units. I-units are equity securities issued to affiliates of MLPs, typically a limited liability company, that own an interest in and manage the MLP. The issuer has management rights but is not entitled to incentive distributions. The I-Share issuer's assets consist exclusively of MLP I-units. Distributions by MLPs to I-unit holders are made in the form of additional I-units, generally equal in amount to the cash received by common unit holders of MLPs. Distributions to I-Share holders are made in the form of additional I-Shares, generally equal in amount to the I-units received by the I-Share issuer. The issuer of the I-Share is taxed as a corporation for U.S. federal income tax purposes; however, the MLP does not allocate income or loss to the I-Share issuer. Accordingly, investors receive a Form 1099, are not allocated their proportionate share of income of the MLPs and are not subject to state income tax filing obligations. The price of I-Shares and their volatility tend to be correlated to the price of common units, although the price correlation is not precise.

S. Derivatives Transactions. Rule 18f-4 under the 1940 Act governs the Fund's use of derivative instruments and certain other transactions that create future payment and/or delivery obligations by the Fund. Rule 18f-4 permits the Fund to enter into Derivatives Transactions (as defined below) and certain other transactions notwithstanding the restrictions on the issuance of "senior securities" under Section 18 of the 1940 Act. Section 18 of the 1940 Act, among other things, prohibits open-end funds, including the Fund, from issuing or selling any "senior security," other than borrowing from a bank (subject to a requirement to maintain 300% "asset coverage"). In connection with the adoption of Rule 18f-4, the SEC eliminated the asset segregation framework arising from prior SEC guidance for covering Derivatives Transactions and certain financial instruments.

Under Rule 18f-4, "Derivatives Transactions" include the following: (i) any swap, security-based swap (including a contract for differences), futures contract, forward contract, option (excluding purchased options), any combination of the foregoing, or any similar instrument, under which the Fund is or may be required to make any payment or delivery of cash or other assets during the life of the instrument or at maturity or early termination, whether as margin or settlement payment or otherwise; (ii) any short sale borrowing; (iii) reverse repurchase agreements and similar financing transactions, if the Fund elects to treat these transactions as Derivatives Transactions under Rule 18f-4; and (iv) when-issued or forward-settling securities (e.g., firm and standby commitments, including to-be-announced ("TBA") commitments, and dollar rolls) and non-standard settlement cycle securities, unless the Fund intends to physically settle the transaction and the transaction will settle within 35 days of its trade date.

Unless the Fund is relying on the Limited Derivatives User Exception (as defined below), the Fund must comply with Rule 18f-4 with respect to its Derivatives Transactions. Rule 18f-4, among other things, requires the Fund to (i) appoint a Derivatives Risk Manager, (ii) maintain a Derivatives Risk Management Program designed to identify, assess, and reasonably manage the risks associated with Derivatives Transactions; (iii) comply with certain value-at-risk (VaR)-based leverage limits (VaR is an estimate of an instrument's or portfolio's potential losses over a given time horizon and at a specified confidence level); and (iv) comply with certain Board reporting and recordkeeping requirements.

Rule 18f-4 provides an exception from the requirements to appoint a Derivatives Risk Manager, adopt a Derivatives Risk Management Program, comply with certain VaR-based leverage limits, and comply with certain Board oversight and reporting requirements if the Fund's "derivatives exposure" (as defined in Rule 18f-4) is limited to 10% of its net assets (as calculated in accordance with Rule 18f-4) and the Fund adopts and

implements written policies and procedures reasonably designed to manage its derivatives risks (the "Limited Derivatives User Exception").

Pursuant to Rule 18f-4, if the Fund enters into reverse repurchase agreements or similar financing transactions, the Fund will (i) aggregate the amount of indebtedness associated with all of its reverse repurchase agreements or similar financing transactions with the amount of any other "senior securities" representing indebtedness (e.g., bank borrowings, if applicable) when calculating the Fund's asset coverage ratio or (ii) treat all such transactions as Derivatives Transactions.

The requirements of Rule 18f-4 may limit the Fund's ability to engage in Derivatives Transactions as part of its investment strategies. These requirements may also increase the cost of the Fund's investments and cost of doing business, which could adversely affect the value of the Fund's investments and/or the performance of the Fund.

INVESTMENT LIMITATIONS

Fundamental. The investment limitations described below have been adopted by the Trust with respect to the Fund and are fundamental ("Fundamental"), i.e., they may not be changed without the affirmative vote of a majority of the outstanding shares of the Fund. As used in the Prospectus and the Statement of Additional Information, the term "majority" of the outstanding shares of the Fund means the lesser of: (1) 67% or more of the outstanding shares of the Fund present at a meeting, if the holders of more than 50% of the outstanding shares of the Fund are present or represented at such meeting; or (2) more than 50% of the outstanding shares of the Fund. Other investment practices which may be changed by the Board without the approval of shareholders to the extent permitted by applicable law, regulation or regulatory policy are considered non-fundamental ("Non-Fundamental").

1. **Borrowing Money.** The Fund will not borrow money, except: (a) from a bank, provided that immediately after such borrowing there is an asset coverage of 300% for all borrowings of the Fund; or (b) from a bank or other persons for temporary purposes only, provided that such temporary borrowings are in an amount not exceeding 5% of the Fund's total assets at the time when the borrowing is made. This limitation does not preclude the Fund from entering into reverse repurchase transactions, provided that the Fund has an asset coverage of 300% for all borrowings and repurchase commitments of the Fund pursuant to reverse repurchase transactions.

2. **Senior Securities.** The Fund will not issue senior securities. This limitation is not applicable to activities that may be deemed to involve the issuance or sale of a senior security by the Fund, provided that the Fund's engagement in such activities is consistent with or permitted by the Investment Company Act of 1940, as amended (The "1940 Act"), the rules and regulations promulgated thereunder or interpretations of the SEC or its staff.

3. **Underwriting.** The Fund will not act as underwriter of securities issued by other persons. This limitation is not applicable to the extent that, in connection with the disposition of portfolio securities (including restricted securities), a Fund may be deemed an underwriter under certain federal securities laws.

4. **Real Estate.** The Fund will not purchase or sell real estate. This limitation is not applicable to investments in marketable securities which are secured by or represent interests in real estate. This limitation does not preclude the Fund from investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including real estate investment trusts).

5. **Commodities.** The Fund will not purchase or sell commodities unless acquired as a result of ownership of securities or other investments. This limitation does not preclude the Fund from purchasing or selling options or futures contracts, from investing in securities or other instruments backed by commodities or from investing in companies which are engaged in a commodities business or have a significant portion of their assets in commodities.

6. Loans. The Fund may not make loans to others, except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.

7. Concentration. The Fund will not invest 25% or more of its total assets in a particular industry. This limitation is not applicable to investments in obligations issued or guaranteed by the U.S. government, its agencies and instrumentalities or repurchase agreements with respect thereto.

8. Diversification. The Fund may not make any investment that is inconsistent with its classification as a “diversified” investment company under the 1940 Act as interpreted or modified from time to time.

Currently, to remain classified as a “diversified” investment company under the 1940 Act, the Fund must conform with the following, subject to modification to conform to the 1940 Act as interpreted or modified from time to time: With respect to 75% of its total assets, the Fund may not invest more than 5% of the Fund’s total assets, determined at market or other fair value at the time of purchase, in the securities of any one issuer, or invest in more than 10% of the outstanding voting securities of any one issuer, determined at the time of purchase. These limitations do not apply to (1) the Fund’s assets represented by cash or cash equivalents, (2) investments in securities issued or guaranteed by the U.S. government or its agencies or instrumentalities, and (3) shares of other investment companies.

With respect to the percentages adopted by the Trust as maximum limitations on its investment policies and limitations, an excess above the fixed percentage will not be a violation of the policy or limitation unless the excess results immediately and directly from the acquisition of any security or the action taken. This paragraph does not apply to the borrowing policy set forth in paragraph 1 above.

Notwithstanding any of the foregoing limitations, any investment company, whether organized as a trust, association or corporation, or a personal holding company, may be merged or consolidated with or acquired by the Fund, provided that if following the consummation of such merger, consolidation or acquisition results in an investment in the securities of any issuer or a position held that is prohibited by any applicable limitation or restriction of the Fund, the Fund shall, within ninety days (three days in the case of Investment Limitation #1 above) after the consummation of such merger, consolidation or acquisition (or the date of exceeding the borrowing limit with respect to Investment Limitation #1 above), dispose of all of the securities of such issuer or such portion thereof or eliminate such position, as shall be necessary to bring the investment or position within the bounds of the applicable limitation or restriction of the Fund.

THE INVESTMENT ADVISER

The Adviser is Taylor Frigon Capital Management, LLC, located at 18835 N Thompson Peak Pkwy C-215 Scottsdale, AZ 85255. The Adviser is controlled by Gerard J. Frigon and Karen T. Frigon, Trustees of the Frigon Family Trust. Under the terms of the Management Agreement, the Adviser manages the investment portfolio of the Fund, subject to policies adopted by the Trust’s Board. Under the Management Agreement, the Adviser, at its own expense and without reimbursement from the Trust, furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the assets of the Fund. For its services the Adviser receives an investment management fee equal to 1.00% of the average daily net assets of the Fund. For the fiscal year ended November 30, 2021, the Adviser earned management fees equal to \$561,884. For the fiscal year ended November 30, 2022, the Adviser earned management fees equal to \$407,778. For the fiscal year ended November 30, 2023, the Adviser earned management fees equal to \$313,261. A discussion regarding the basis of the Board’s approval of the Management Agreement between the Trust and the Adviser is available in the Fund’s semi-annual report to shareholders, which covers the 6-month period ending May 31 each year.

Under the Services Agreement the Adviser receives an additional fee of 0.45% of the Fund’s average daily net assets up to \$100 million, and 0.25% of such assets in excess of \$100 million and is obligated to pay the operating expenses of the Fund excluding management fees, brokerage fees and commissions, 12b- fees (if any), taxes, borrowing costs (such as (a) interest and (b) dividend expenses on securities sold short), ADR fees, the cost of acquired funds and extraordinary expenses. For the fiscal year ended November 30, 2021, the Adviser earned fees pursuant to the Services Agreement equal to \$252,848. For the fiscal year ended

November 30, 2022, the Adviser earned fees pursuant to the Services Agreement equal to \$183,500. For the fiscal year ended November 30, 2023, the Adviser earned fees pursuant to the Services Agreement equal to \$140,968.

The Adviser retains the right to use the name "Taylor Frigon Core Growth Fund" or any derivative thereof in connection with another investment company or business enterprise with which the Adviser is or may become associated. The Trust's right to use the name "Taylor Frigon Core Growth Fund" or any derivative thereof automatically ceases ninety days after termination of the Investment Management Agreement and may be withdrawn by the Adviser on ninety days written notice.

The Adviser may make payments to banks or other financial institutions that provide shareholder services and administer shareholder accounts. If a bank or other financial institution were prohibited from continuing to perform all or a part of such services, management of the Fund believes that there would be no material impact on the Fund or its shareholders. Financial institutions may charge their customers fees for offering these services to the extent permitted by applicable regulatory authorities, and the overall return to those shareholders availing themselves of the financial institution's services will be lower than to those shareholders who do not. The Fund may from time to time purchase securities issued by financial institutions that provide such services; however, in selecting investments for the Fund, no preference will be shown for such securities.

THE PORTFOLIO MANAGER

Gerard J. Frigon (the "Portfolio Manager") is the portfolio manager of the Fund. The Fund's investment portfolio is primarily managed on a day-to-day basis by Mr. Frigon. The following provides information regarding other accounts managed by the Portfolio Manager as of November 30, 2023:

Gerard J. Frigon

Account Type	Number of Accounts by Account Type	Total Assets By Account Type	Number of Accounts by Type Subject to a Performance Fee	Total Assets By Account Type Subject to a Performance Fee
Registered Investment Companies	0	0	0	0
Other Pooled Investment Vehicles	1	\$62 Million	1	\$62 Million
Other Accounts	163	\$202 million	0	0

Mr. Frigon manages separate accounts that may employ a strategy similar to that of the Fund. Actual or apparent conflicts of interest may arise in connection with the day-to-day management of the Fund and other accounts. The management of the Fund and other accounts may result in unequal time and attention being devoted to the Fund and other accounts. Another potential conflict of interest may arise where another account has the same investment objective as the Fund, whereby the portfolio manager could favor one account over another. Further, a potential conflict could include the portfolio manager's knowledge about the size, timing and possible market impact of Fund trades, whereby the portfolio manager could use this information to the advantage of other accounts and to the disadvantage of the Fund. These potential conflicts of interest could create the appearance that the portfolio manager is favoring one investment vehicle over another.

Mr. Frigon's compensation is based on a regular salary and on the profits realized by Adviser for managing the Fund and other advisory fees paid to the Adviser. He participates directly in the profits and losses of the Adviser, including the advisory fees paid by the Fund. The Adviser sponsors a deferred compensation / retirement plan associated with Mr. Frigon's service to the Fund.

The following table shows the dollar range of equity securities beneficially owned by the Portfolio Manager in the Fund as of November 30, 2023.

Name of Portfolio Manager	Dollar Range of Equity Securities in the Core Investment Fund
Gerard J. Frigon	\$1–\$10,000

TRUSTEES AND OFFICERS

The Board supervises the business activities of the Trust. The names of the Trustees and executive officers of the Trust are shown below. The Trustees who are "interested persons" of the Trust, as defined in the Investment Company Act of 1940, are indicated by an asterisk. Each Trustee serves until the Trustee sooner dies, resigns, retires or is removed. Officers hold office for one year and until their respective successors are chosen and qualified.

The Board is currently composed of five Trustees, including four Trustees who are not "interested persons" of the Fund, as that term is defined in the 1940 Act (each an "Independent Trustee"). In addition to four regularly scheduled meetings per year, the Board holds special meetings or informal conference calls to discuss specific matters that may require action prior to the next regular meeting. The Board has established an Audit Committee comprised entirely of Trustees who are Independent Trustees. The Audit Committee is generally responsible for (i) overseeing and monitoring the Trust's internal accounting and control structure, its auditing function and its financial reporting process, (ii) selecting and recommending to the full Board the appointment of auditors for the Trust, (iii) reviewing audit plans, fees, and other material arrangements with respect to the engagement of auditors, including permissible non-audit services performed; (iv) reviewing the qualifications of the auditor's key personnel involved in the foregoing activities and (v) monitoring the auditor's independence.

Board Leadership Structure. The Board has established an Audit Committee which allows it to access the expertise necessary to oversee the Trust, identify risks, recognize shareholder concerns and needs and highlight opportunities. The Audit Committee is able to focus Board time and attention to matters of interest to shareholders and, through its private sessions with the Trust's auditor, Chief Compliance Officer and legal counsel, stay fully informed regarding management decisions. The Board has determined that its leadership structure is appropriate based on the size of the Trust, the Board's current responsibilities, each Trustee's ability to participate in the oversight of the Trust and committee transparency. The Board periodically reviews this leadership structure and believes it to be appropriate because it allows the Board to exercise informed and independent judgment over matters under its purview, and allocates responsibility among the Audit Committee of the Trustees and the full Board in a manner that enhances effective oversight.

Risk Oversight. Mutual funds face a number of risks, including investment risk, compliance risk and valuation risk. The Board oversees management of the Fund's risks directly and through its officers. While day-to-day risk management responsibilities rest with each Fund's Chief Compliance Officer, investment advisers and other service providers, the Board monitors and tracks risk by: (1) receiving and reviewing quarterly reports related to the performance and operations of the Fund; (2) reviewing and approving, as applicable, the compliance policies and procedures of the Trust, including the Trust's valuation policies and transaction procedures; (3) periodically meeting with the portfolio manager to review investment strategies, techniques and related risks; (4) meeting with representatives of key service providers, including the Fund's investment advisers, administrator, distributor, transfer agent and the independent registered public accounting firm, to discuss the activities of the Fund; (5) engaging the services of the Chief Compliance Officer of the Fund to test the compliance procedures of the Trust and its service providers; (6) receiving and reviewing reports from the Trust's independent registered public accounting firm regarding the Fund's financial condition and the Trust's internal controls; and (7) receiving and reviewing an annual written report prepared by the Chief Compliance Officer reviewing the adequacy of the Trust's compliance policies and procedures and the effectiveness of their implementation. The Board has concluded that its general oversight of the investment advisers and other service providers as implemented through the reporting and monitoring process outlined above allows the Board to effectively administer its risk oversight function.

AUDIT COMMITTEE

The Board has an Audit Committee, which is comprised of the independent members of the Board, Thomas H. Addis III, Robert L. Boerner, Allen C. Brown and John W. Czechowicz. The Audit Committee meets at least once a year, or more often as required, in conjunction with meetings of the Board. The Audit Committee oversees and monitors the Trust's internal accounting and control structure, its auditing function and its financial reporting process. The Audit Committee selects and recommends to the full Board the appointment of auditors for the Trust. The Audit Committee also reviews audit plans, fees, and other material arrangements with respect to the engagement of auditors, including permissible non-audit services performed. It reviews the qualifications of the auditor's key personnel involved in the foregoing activities and monitors the auditor's independence. During the fiscal year ended November 30, 2023, the Audit Committee met four times.

The Board nominates and appoints trustees to fill vacancies on the Board and to stand for election at shareholder meetings of the Trust. The nomination of any Independent Trustees to the Board is made in the sole and exclusive discretion of the current Independent Trustees. The Trustees do not consider nominations by shareholders for trustee candidates. Each Trustee was nominated to serve on the Board based on their particular experiences, qualifications, attributes and skills. The characteristics that have led the Board to conclude that each of the Trustees should continue to serve as a Trustee of the Trust are discussed below.

Jeffrey R. Provence. Mr. Jeffrey R. Provence has served as a Trustee since the Trust's inception in 2000. Mr. Jeffrey R. Provence is the CEO of Premier Fund Solutions, Inc. which provides the Board with knowledge related to fund administration. Mr. Jeffrey R. Provence is also a General Partner of Value Trend Capital Management, LP, and has worked in the investment management industry since 1995 providing investment management knowledge to the Board.

Thomas H. Addis III. Mr. Addis has served as a Trustee since the Trust's inception in 2000. Mr. Addis is the Executive Director/CEO of the Southern California PGA. His strategic planning, organizational and leadership skills help the Board set long-term goals.

Robert L. Boerner. Mr. Boerner has served as a Trustee since September 2022. He has been a licensed real estate broker for over 20 years and also has experience as a licensed mortgage lender. Mr. Boerner has extensive experience representing residential buyers and sellers and strong ability to understand complex financial and financing aspects of transactions. The Board believes his experience with the complexities of the highly-regulated aspects of real estate, mortgage lending and sales translate well to the highly-regulated environment under which mutual funds must operate. Consequently, he has experience overseeing layers of regulatory conditions under which an entity must operate which parallels the operations of mutual funds.

Allen C. Brown. Mr. Brown has served as a Trustee since June 2010. He was an estate planning and business attorney from 1970 to 2021. As a practicing attorney for over five decades, Mr. Brown provides a valued legal perspective to the Board.

John W. Czechowicz. Mr. Czechowicz has served as a Trustee since September 2022. He is a Certified Public Accountant. As a Certified Public Accountant, Mr. Czechowicz brings budgeting and financial reporting skills to the Board. Consequently, he has experience analyzing financial statements and related disclosures, as well as a strong understanding of accounting pronouncements and regulations. His experience provides a valued financial reporting perspective to the Board.

The trustees and officers, together with their addresses, age, principal occupations during the past five years are as follows:

Interested Trustees and Officers

Name, Address ⁽¹⁾ , and Age	Position(s) with the Trust	Term of Office and Length of Time Served	Principal Occupation(s) During Past 5 Years	Number of Portfolios In Fund Complex Overseen By Trustee	Other Directorships Held By Trustee Over the Past Five Years
James D. Craft, Year of Birth: 1982	President	Indefinite Term; Since 2023	Fund Administrator, Premier Fund Solutions, Inc. (2007-present); Chief Technology Officer, Premier Fund Solutions, Inc. (2011 to present).	N/A	N/A
Jeffrey R. Provence ⁽²⁾ , Year of Birth: 1969	Trustee, Secretary and Treasurer	Indefinite Term; Since 2000	CEO, Premier Fund Solutions, Inc. (2001 to current). General Partner and Portfolio Manager for Value Trend Capital Management, LP (1995 to current).	12	Blue Chip Investor Funds, Meeder Funds
Julian G. Winters, Year of Birth: 1968	Chief Compliance Officer	Chief Compliance Officer Since 2010	Managing Member, Watermark Solutions LLC (investment compliance and consulting firm) since March 2007.	N/A	N/A

⁽¹⁾ The address of each trustee and officer is c/o PFS Funds, 1939 Friendship Drive, Suite C, El Cajon, CA 92020.

⁽²⁾ Jeffrey R. Provence is considered "interested person" as defined in Section 2(a)(19) of the 1940 Act by virtue of his position with the Trust.

Independent Trustees

Name, Address ⁽¹⁾ , and Age	Position with the Trust	Term of Office and Length of Time Served	Principal Occupation(s) During Past 5 Years	Number of Portfolios In Fund Complex Overseen By Trustee	Other Directorships Held By Trustee Over the Past Five Years

BOARD INTEREST IN THE FUND

As of December 31, 2023, the Trustees owned the following amounts in the Fund:

Name of Trustee	Dollar Range of Securities In The Taylor Frigon Core Growth Fund	Aggregate Dollar Range of Equity Securities In All Registered Investment Companies Overseen By Trustee In Family of Investment Companies
Jeffrey R. Provence ⁽¹⁾	\$1-\$10,000	Over \$100,000
Thomas H. Addis III	\$0	\$0
Robert L. Boerner	\$0	\$0
Allen C. Brown	\$0	\$0
John W. Czechowicz, CPA	\$0	\$0

⁽¹⁾ Jeffrey R. Provence is considered "interested person" as defined in Section 2(a)(19) of the 1940 Act by virtue of his position with the Trust.

COMPENSATION

Trustee fees are paid by the advisers to the Funds of the Trust, including the Adviser to the Taylor Frigon Core Growth Fund. Trustees who are deemed "interested persons" of the Trust receive no compensation. Each Independent Trustee shall receive a \$375 per meeting fee for each series portfolio of the Trust unless such series portfolio has not reached (i) 5 years of operations (ii) or \$5 million in assets, in such case the fee would be \$250 per meeting. Additionally, for each series portfolio with less than one year of operation the maximum per meeting fee received by an Independent Trustee is \$250. The following table shows Trustee compensation for the year ended November 30, 2023:

<u>Name</u>	<u>Pension or Retirement Benefits Accrued as Part of Fund Expenses</u>	<u>Estimated Annual Benefits Upon Retirement</u>	<u>Aggregate Compensation from the Taylor Frigon Core Growth Fund</u>	<u>Total Compensation from the Fund Complex</u>
Jeffrey R. Provence	\$0	\$0	\$0	\$0
Thomas H. Addis III	\$0	\$0	\$1,500	\$19,500
Robert L. Boerner ⁽¹⁾	\$0	\$0	\$1,500	\$19,500
Allen C. Brown	\$0	\$0	\$1,500	\$19,500
John W. Czechowicz ⁽¹⁾	\$0	\$0	\$1,500	\$19,500

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

A principal shareholder is any person who owns (either of record or beneficially) 5% or more of the outstanding shares of the Fund. A control person is one who owns, either directly or indirectly, more than 25% of the voting securities of the Fund or acknowledges the existence of such control. As a controlling shareholder, each of these persons could control the outcome of any proposal submitted to the shareholders for approval, including changes to the Fund's fundamental policies or the terms of the management agreement with the Adviser. To the best knowledge of the Trust, the names and addresses of the record and beneficial holders of 5% or more of the outstanding shares of the Fund's voting securities and the percentage of the outstanding shares held by such holders, each as of March 4, 2024, are set forth below.

<u>Name and Address</u>	<u>Shares</u>	<u>Percent Ownership</u>	<u>Type of Ownership</u>
Charles Schwab & Co., Inc. For Benefit of Customers 211 Main Street San Francisco, California 94105	1,709,837.09	93.05%	Record

As of March 4, 2024, the trustees and officers owned less than 1% of the shares of the Fund.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Subject to policies established by the Board, the Adviser is responsible for the Fund's portfolio decisions and the placing of the Fund's portfolio transactions. In placing portfolio transactions, the Adviser seeks the best qualitative execution for the Fund, taking into account such factors as price (including the applicable brokerage commission or dealer spread), the execution capability, financial responsibility and responsiveness of the broker or dealer and the brokerage and research services provided by the broker or dealer. The Adviser generally seeks favorable prices and commission rates that are reasonable in relation to the benefits received. The Adviser may not give consideration to sales of shares of the Trust as a factor in the selection of brokers and dealers to execute portfolio transactions. However, the Adviser may place portfolio transactions with brokers or dealers that promote or sell the Fund's shares so long as such placements are made pursuant to policies approved by the Fund's Board that are designed to ensure that the selection is based on the quality of the broker's execution and not on its sales efforts.

The Adviser is specifically authorized to select brokers or dealers who also provide brokerage and research services to the Fund and/or the other accounts over which the Adviser exercises investment discretion and to

pay such brokers or dealers a commission in excess of the commission another broker or dealer would charge if the Adviser determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services provided. The determination may be viewed in terms of a particular transaction or the Adviser's overall responsibilities with respect to the Trust and to other accounts over which it exercises investment discretion.

Research services include supplemental research, securities and economic analyses, statistical services and information with respect to the availability of securities or purchasers or sellers of securities and analyses of reports concerning performance of accounts. The research services and other information furnished by brokers through whom the Fund effects securities transactions may also be used by the Adviser in servicing all of its accounts. Similarly, research and information provided by brokers or dealers serving other clients may be useful to the Adviser in connection with its services to the Fund. Although research services and other information are useful to the Fund and the Adviser, it is not possible to place a dollar value on the research and other information received. It is the opinion of the Board and the Adviser that the review and study of the research and other information will not reduce the overall cost to the Adviser of performing its duties to the Fund under the Investment Advisory Agreement. Due to research services provided by brokers, the Fund may direct trades to certain brokers. For the fiscal year ended November 30, 2021, the fund paid brokerage commissions of \$20,133. For the fiscal year ended November 30, 2022, the fund paid brokerage commissions of \$32,536. For the fiscal year ended November 30, 2023, the fund paid brokerage commissions of \$32,591.

The portfolio turnover rate for the Fund is calculated by dividing the lesser of amounts of purchases or sales of portfolio securities for the reporting period by the monthly average value of the portfolio securities owned during the reporting period. The calculation excludes all securities, whose maturities or expiration dates at the time of acquisition are one year or less. Portfolio turnover may vary greatly from year to year as well as within a particular year, and may be affected by cash requirements for redemption of shares and by requirements which enables the Fund to receive favorable tax treatment. Portfolio turnover will not be a limiting factor in making portfolio decisions, and the Fund may engage in short-term trading to achieve its investment objective. The portfolio turnover rate for the fiscal year ended November 30, 2022, was 27.53% for the Fund. The portfolio turnover rate for the fiscal year ended November 30, 2023, was 27.35% for the Fund.

Over-the-counter transactions will be placed either directly with principal market makers or with broker-dealers, if the same or a better price, including commissions and executions, is available. Fixed income securities are normally purchased directly from the issuer, an underwriter or a market maker. Purchases include a concession paid by the issuer to the underwriter and the purchase price paid to a market maker may include the spread between the bid and asked prices.

When the Fund and another of the Adviser's clients seek to purchase or sell the same security at or about the same time, the Adviser may execute the transaction on a combined ("blocked") basis. Blocked transactions can produce better execution for the Fund because of the increased volume of the transaction. If the entire blocked order is not filled, the Fund may not be able to acquire as large a position in such security as it desires or it may have to pay a higher price for the security. Similarly, the Fund may not be able to obtain as large an execution of an order to sell or as high a price for any particular portfolio security if the other client desires to sell the same portfolio security at the same time. In the event that the entire blocked order is not filled, the purchase or sale will normally be allocated on a pro rata basis. The allocation may be adjusted by the Adviser, taking into account such factors as the size of the individual orders and transaction costs, when the Adviser believes an adjustment is reasonable.

CODES OF ETHICS

The Trust, the Adviser and the Distributor have each adopted a Code of Ethics under Rule 17j-1 of the Investment Company Act of 1940. The personnel subject to the Code of Ethics are permitted to invest in securities, including securities that may be purchased or held by the Fund.

ADDITIONAL TAX INFORMATION

The following discussion is a summary of certain U.S. federal income tax considerations affecting the Fund and its shareholders. The discussion reflects applicable federal income tax laws of the U.S. as of the date of this SAI, which tax laws may be changed or subject to new interpretations by the courts or the Internal Revenue Service (the "IRS"), possibly with retroactive effect. No attempt is made to present a detailed explanation of all U.S. income, estate or gift tax, or foreign, state or local tax concerns affecting the Fund and its shareholders (including shareholders owning large positions in the Fund). The discussion set forth herein does not constitute tax advice. Investors are urged to consult their own tax advisers to determine the tax consequences to them of investing in the Fund.

In addition, no attempt is made to address tax concerns applicable to an investor with a special tax status such as a financial institution, real estate investment trust ("REIT"), insurance company, regulated investment company ("RIC"), individual retirement account, other tax-exempt entity, or dealer in securities. Furthermore, this discussion does not reflect possible application of the alternative minimum tax ("AMT"). Unless otherwise noted, this discussion assumes shares of the Fund are held by U.S. shareholders and that such shares are held as capital assets.

A U.S. shareholder is a beneficial owner of shares of the Fund that is for U.S. federal income tax purposes:

- a citizen or individual resident of the United States (including certain former citizens and former long-term residents);
- a corporation or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust with respect to which a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all of its substantial decisions or the trust has a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

A "Non-U.S. shareholder" is a beneficial owner of shares of the Fund that is an individual, corporation, trust or estate and is not a U.S. shareholder. If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) holds shares of the Fund, the tax treatment of a partner in the partnership generally depends upon the status of the partner and the activities of the partnership. A prospective investor who is a partner of a partnership holding the Fund shares should consult its tax advisers with respect to the purchase, ownership, and disposition of Fund shares by the partnership.

Taxation as a RIC

The Fund intends to qualify each year for treatment as a RIC under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"). There can be no assurance that it actually will so qualify. The Fund will qualify as a RIC if, among other things, it meets the source-of-income and the asset-diversification requirements. With respect to the source-of-income requirement, the Fund must derive in each taxable year at least 90% of its gross income (including tax-exempt interest) from (i) dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including but not limited to gains from options, futures and forward

contracts) derived with respect to its business of investing in such shares, securities or currencies and (ii) net income derived from an interest in a “qualified publicly traded partnership.” A “qualified publicly traded partnership” is generally defined as a publicly traded partnership under Internal Revenue Code section 7704. However, for these purposes, a qualified publicly traded partnership does not include a publicly traded partnership if 90% or more of its income is described in (i) above. Income derived from a partnership (other than a qualified publicly traded partnership) or trust is qualifying income to the extent such income is attributable to items of income of the partnership or trust which would be qualifying income if realized by the Fund in the same manner as realized by the partnership or trust.

If a RIC fails this 90% income test as long as such failure is inadvertent, such RIC is only required to pay a tax equal to the amount by which it failed the 90% income test.

With respect to the asset-diversification requirement, the Fund must diversify its holdings so that, at the end of each quarter of each taxable year (i) at least 50% of the value of the Fund’s total assets is represented by cash and cash items, U.S. government securities, the securities of other RICs and other securities, if such other securities of any one issuer do not represent more than 5% of the value of the Fund’s total assets or more than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the Fund’s total assets is invested in the securities other than U.S. government securities or the securities of other RICs of (a) one issuer, (b) two or more issuers that are controlled by the Fund and that are engaged in the same, similar or related trades or businesses, or (c) one or more qualified publicly traded partnerships.

If a RIC fails this asset-diversification test, such RIC, in addition to other cure provisions, has a 6-month period to correct any failure without incurring a penalty if such failure is “de minimis.”

Similarly, if a RIC fails this asset-diversification test and the failure is not de minimis, a RIC can cure failure if: (a) the RIC files with the Treasury Department a description of each asset that causes the RIC to fail the diversification tests; (b) the failure is due to reasonable cause and not willful neglect; and (c) the failure is cured within six months (or such other period specified by the Treasury). In such cases, a tax is imposed on the RIC equal to the greater of: (a) \$50,000 or (b) an amount determined by multiplying the highest rate of corporate tax (currently 21%) by the amount of net income generated during the period of diversification test failure by the assets that caused the RIC to fail the diversification test.

If the Fund qualifies as a RIC and distributes to its shareholders, for each taxable year, at least 90% of the sum of (i) its “investment company taxable income” as that term is defined in the Internal Revenue Code (which includes, among other things, dividends, taxable interest, the excess of any net short-term capital gains over net long-term capital losses and certain net foreign exchange gains as reduced by certain deductible expenses) without regard to the deduction for dividends paid, and (ii) the excess of its gross tax-exempt interest, if any, over certain deductions attributable to such interest that are otherwise disallowed, the Fund will be relieved of U.S. federal income tax on any income of the Fund, including long-term capital gains, distributed to shareholders. However, any ordinary income or capital gain retained by the Fund will be subject to U.S. federal income tax at regular corporate federal income tax rates (currently at a maximum rate of 21%). The Fund intends to distribute at least annually substantially all of its investment company taxable income, net tax-exempt interest, and net capital gain.

The Fund will generally be subject to a nondeductible 4% federal excise tax on the portion of its undistributed ordinary income with respect to each calendar year and undistributed capital gains if it fails to meet certain distribution requirements with respect to the one-year period ending on October 31 in that calendar year. In order to avoid the 4% federal excise tax, the required minimum distribution is generally equal to the sum of (i) 98% of the Fund’s ordinary income (computed on a calendar year basis), (ii) 98.2% of the Fund’s capital gain net income (generally computed for the one-year period ending on October 31) and (iii) any income realized, but not distributed, and on which the Fund paid no federal income tax in preceding years. The Fund generally intends to make distributions in a timely manner in an amount at least equal to the required minimum distribution and therefore, under normal market conditions, does not expect to be subject to this excise tax.

To the extent that the Fund has capital loss carryforwards from prior tax years, those carryforwards will reduce the net capital gains that can support the Fund’s distribution of Capital Gain Dividends. A RIC is permitted to carry forward net capital losses indefinitely and may allow losses to retain their original character (as short or as long-term).

As of November 30, 2023, the Fund had available unused short-term capital loss carryforward of \$165,631 with no expiration and long-term capital loss carryforward of \$2,164,819 with no expiration.

The Fund may be required to recognize taxable income in circumstances in which it does not receive cash. For example, if the Fund holds debt obligations that are treated under applicable tax rules as having original issue discount (such as debt instruments with payment in kind interest or, in certain cases, with increasing interest rates or that are issued with warrants), the Fund must include in income each year a portion of the original issue discount that accrues over the life of the obligation regardless of whether cash representing such income is received by the Fund in the same taxable year. Because any original issue discount accrued will be included in the Fund's "investment company taxable income" (discussed below) for the year of accrual, the Fund may be required to make a distribution to its shareholders to satisfy the distribution requirement, even though it will not have received an amount of cash that corresponds with the income earned.

Gain or loss realized by the Fund from the sale or exchange of warrants acquired by the Fund as well as any loss attributable to the lapse of such warrants generally will be treated as capital gain or loss. Such gain or loss generally will be long-term or short-term, depending on how long the Fund held a particular warrant. Upon the exercise of a warrant acquired by the Fund, the Fund's tax basis in the stock purchased under the warrant will equal the sum of the amount paid for the warrant plus the strike price paid on the exercise of the warrant.

Except as set forth in "Failure to Qualify as a RIC," the remainder of this discussion assumes that the Fund will qualify as a RIC for each taxable year.

Failure to Qualify as a RIC

If the Fund is unable to satisfy the 90% distribution requirement or otherwise fails to qualify as a RIC in any year, it could be subject to corporate level income tax on all of its income and gain, regardless of whether or not such income was distributed. Distributions to the Fund's shareholders of such income and gain will not be deductible by the Fund in computing its taxable income. In such event, the Fund's distributions, to the extent derived from the Fund's current or accumulated earnings and profits, would constitute ordinary dividends, which would generally be eligible for the dividends received deduction available to corporate shareholders, and non-corporate shareholders would generally be able to treat such distributions as "qualified dividend income" eligible for reduced rates of U.S. federal income, provided in each case that certain holding period and other requirements are satisfied.

Distributions in excess of the Fund's current and accumulated earnings and profits would be treated first as a return of capital to the extent of the shareholders' tax basis in their Fund shares, and any remaining distributions would be treated as a capital gain. To qualify as a RIC in a subsequent taxable year, the Fund would be required to satisfy the source-of-income, the asset diversification, and the annual distribution requirements for that year and dispose of any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. Subject to a limited exception applicable to RICs that qualified as such under the Internal Revenue Code for at least one year prior to disqualification and that re-qualify as a RIC no later than the second year following the non-qualifying year, the Fund would be subject to tax on any unrealized built-in gains in the assets held by it during the period in which the Fund failed to qualify for tax treatment as a RIC that are recognized within the subsequent 10 years, unless the Fund made a special election to pay corporate-level tax on such built-in gain at the time of its re-qualification as a RIC.

Taxation for U.S. Shareholders

Distributions paid to U.S. shareholders by the Fund from its investment company taxable income (which is, generally, the Fund's ordinary income plus net realized short-term capital gains in excess of net realized long-term capital losses) are generally taxable to U.S. shareholders as ordinary income to the extent of the Fund's earnings and profits, whether paid in cash or reinvested in additional shares. Such distributions (if designated by the Fund) may qualify (i) for the dividends received deduction in the case of corporate shareholders under Section 243 of the Internal Revenue Code to the extent that the Fund's income consists of dividend income from U.S. corporations, excluding distributions from tax-exempt organizations, exempt farmers' cooperatives or REITs or (ii) in the case of individual shareholders, as qualified dividend income eligible to be taxed at reduced rates under Section 1(h)(11) of the Internal Revenue Code (which provided for a minimum 20% rate) to the extent that the Fund receives qualified dividend income, and provided in each case certain holding period and

other requirements are met. Qualified dividend income is, in general, dividend income from taxable domestic corporations and qualified foreign corporations (e.g., generally, foreign corporations incorporated in a possession of the United States or in certain countries with a qualified comprehensive income tax treaty with the United States, or the stock with respect to which such dividend is paid is readily tradable on an established securities market in the United States). A qualified foreign corporation generally excludes any foreign corporation, which for the taxable year of the corporation in which the dividend was paid, or the preceding taxable year, is a passive foreign investment company. Distributions made to a U.S. shareholder from an excess of net long-term capital gains over net short-term capital losses ("capital gain dividends"), including capital gain dividends credited to such shareholder but retained by the Fund, are taxable to such shareholder as long-term capital gain if they have been properly designated by the Fund, regardless of the length of time such shareholder owned the shares of the Fund. The maximum tax rate on capital gain dividends received by individuals is generally 20%. Distributions in excess of the Fund's earnings and profits will be treated by the U.S. shareholder, first, as a tax-free return of capital, which is applied against and will reduce the adjusted tax basis of the U.S. shareholder's shares and, after such adjusted tax basis is reduced to zero, will constitute capital gain to the U.S. shareholder (assuming the shares are held as a capital asset). Generally, not later than sixty days after the close of its taxable year, the Fund will provide the shareholders with a written notice designating the amount of any qualified dividend income or capital gain dividends and other distributions.

As a RIC, the Fund will be subject to the AMT, but any items that are treated differently for AMT purposes must be apportioned between the Fund and the shareholders and this may affect the shareholders' AMT liabilities. The Fund intends in general to apportion these items in the same proportion that dividends paid to each shareholder bear to the Fund's taxable income (determined without regard to the dividends paid deduction), unless the Fund determines that a different method for a particular item is warranted under the circumstances.

For purposes of determining (i) whether the annual distribution requirement is satisfied for any year and (ii) the amount of capital gain dividends paid for that year, the Fund may, under certain circumstances, elect to treat a dividend that is paid during the following taxable year as if it had been paid during the taxable year in question. If the Fund makes such an election, the U.S. shareholder will still be treated as receiving the dividend in the taxable year in which the distribution is made. However, any dividend declared by the Fund in October, November, or December of any calendar year, payable to shareholders of record on a specified date in such a month and actually paid during January of the following year, will be treated as if it had been received by the U.S. shareholders on December 31 of the year in which the dividend was declared.

If more than 50% of the value of the Fund's assets at the close of the taxable year consist of stock or securities in foreign corporations and certain other requirements are met, the Fund may elect to have its foreign tax deduction or credit for such withholding taxes be taken by its investors instead of claiming it on its tax return. If such an election is made, each investor will include in gross income his proportional share of the foreign taxes paid by the Fund. Investors may claim the amount of such taxes paid as a foreign tax credit in order to reduce the amount of U.S. federal income tax liability that an investor incurs on his or her foreign source income, including foreign source income from the Fund. If the Fund makes the election, it will furnish the shareholders with a written notice after the close of its taxable year.

The Fund intends to distribute all realized capital gains, if any, at least annually. If, however, the Fund were to retain any net capital gain, the Fund may designate the retained amount as undistributed capital gains in a notice to shareholders who, if subject to U.S. federal income tax on long-term capital gains, (i) will be required to include in income as long-term capital gain, their proportionate shares of such undistributed amount, and (ii) will be entitled to credit their proportionate shares of the federal income tax paid by the Fund on the undistributed amount against their U.S. federal income tax liabilities, if any, and to claim refunds to the extent the credit exceeds such liabilities. If such an event occurs, the tax basis of shares owned by a shareholder of the Fund will, for U.S. federal income tax purposes, generally be increased by the difference between the amount of undistributed net capital gain included in the shareholder's gross income and the tax deemed paid by the shareholders.

Sales and other dispositions of the shares of the Fund generally are taxable events. U.S. shareholders should consult their own tax adviser with reference to their individual circumstances to determine whether any particular transaction in the shares of the Fund is properly treated as a sale or exchange for federal income tax purposes, as the following discussion assumes, and the tax treatment of any gains or losses recognized in such

transactions. The sale or other disposition of shares of the Fund will generally result in capital gain or loss to the shareholder equal to the difference between the amount realized and his adjusted tax basis in the shares sold or exchanged, and will be long-term capital gain or loss if the shares have been held for more than one year at the time of sale. Any loss upon the sale or exchange of shares held for six months or less will be treated as long-term capital loss to the extent of any capital gain dividends received (including amounts credited as an undistributed capital gain dividend) by such shareholder with respect to such shares. A loss realized on a sale or exchange of shares of the Fund generally will be disallowed if other substantially identical shares are acquired within a 61-day period beginning 30 days before and ending 30 days after the date that the shares are disposed. In such case, the basis of the shares acquired will be adjusted to reflect the disallowed loss. Present law taxes both long-term and short-term capital gain of corporations at the rates applicable to ordinary income of corporations. For non-corporate taxpayers, short-term capital gain will currently be taxed at the rate applicable to ordinary income, while long-term capital gain generally will be taxed at a maximum rate of 20%. Capital losses are subject to certain limitations.

The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders. A tax lot identification method is the way the Fund will determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund's standing tax lot identification method is the method shares will be reported on your Consolidated Form 1099 if you do not select a specific tax lot identification method. You may choose a method different than the Fund's standing method and will be able to do so at the time of your purchase or upon the sale of shares.

The Fund is responsible for maintaining accurate cost basis and tax lot information for tax reporting purposes. The Fund and its service providers do not provide tax advice. You should consult independent sources, which may include a tax professional, with respect to any decisions you may make with respect to choosing a tax lot identification method.

Certain U.S. shareholders, including individuals and estates and trusts, are subject to an additional 3.8% Medicare tax on all or a portion of their "net investment income," which should include dividends from the Fund and net gains from the disposition of shares of the Fund. U.S. shareholders are urged to consult their own tax advisors regarding the implications of the additional Medicare tax resulting from an investment in the Fund.

Original Issue Discount, Pay-In-Kind Securities, and Market Discount. Some debt obligations with a fixed maturity date of more than one year from the date of issuance (and zero-coupon debt obligations with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund may be treated as debt obligations that are issued originally at a discount. Generally, the amount of the original issue discount ("OID") is treated as interest income and is included in the Fund's taxable income (and required to be distributed by the Fund) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security.

Some debt obligations (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund in the secondary market may be treated as having "market discount." Very generally, market discount is the excess of the stated redemption price of a debt obligation (or in the case of an obligations issued with OID, its "revised issue price") over the purchase price of such obligation. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt obligation having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the "accrued market discount" on such debt obligation. Alternatively, the Fund may elect to accrue market discount currently, in which case the Fund will be required to include the accrued market discount in the Fund's income (as ordinary income) and thus distribute it over the term of the debt security, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The rate at which the market discount accrues, and thus is included in the Fund's income, will depend upon which of the permitted accrual methods the Fund elects. In the case of higher-risk securities, the amount of market discount may be unclear.

Some debt obligations (with a fixed maturity date of one year or less from the date of issuance) that may be acquired by the Fund may be treated as having "acquisition discount" (very generally, the excess of the stated redemption price over the purchase price), or OID in the case of certain types of debt obligations. The Fund will be required to include the acquisition discount, or OID, in income (as ordinary income) over the term of the debt

obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The Fund may make one or more of the elections applicable to debt obligations having acquisition discount, or OID, which could affect the character and timing of recognition of income.

In addition, payment-in-kind securities will, and commodity-linked notes may, give rise to income that is required to be distributed and is taxable even though the Fund holding the security receives no interest payment in cash on the security during the year.

If the Fund holds the foregoing kinds of securities, it may be required to pay out as an income distribution each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio securities, if necessary (including when it is not advantageous to do so). The Fund may realize gains or losses from such liquidations. In the event the Fund realizes net capital gains from such transactions, its shareholders may receive a larger capital gain distribution than they would in the absence of such transactions.

Tax-Exempt Shareholders. A tax-exempt shareholder could recognize UBTI by virtue of its investment in the Fund if shares in the Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of Internal Revenue Code Section 514(b). Furthermore, a tax-exempt shareholder may recognize UBTI if the Fund recognizes “excess inclusion income” derived from direct or indirect investments in residual interests in REMICs or equity interests in TMPs if the amount of such income recognized by the Fund exceeds the Fund’s investment company taxable income (after taking into account deductions for dividends paid by the Fund).

In addition, special tax consequences apply to charitable remainder trusts (“CRTs”) that invest in regulated investment companies that invest directly or indirectly in residual interests in REMICs or equity interests in TMPs. A CRT (as defined in section 664 of the Internal Revenue Code) that realizes any UBTI for a taxable year, must pay an excise tax annually of an amount equal to such UBTI. Under IRS guidance issued in October 2006, a CRT will not recognize UBTI solely as a result of investing in the Fund that recognizes “excess inclusion income.” Rather, if at any time during any taxable year a CRT (or one of certain other tax-exempt shareholders, such as the United States, a state or political subdivision, or an agency or instrumentality thereof, and certain energy cooperatives) is a record holder of a share in the Fund that recognizes “excess inclusion income,” then the regulated investment company will be subject to a tax on that portion of its “excess inclusion income” for the taxable year that is allocable to such shareholders, at the highest federal corporate income tax rate. The extent to which this IRS guidance remains applicable is unclear. To the extent permitted under the 1940 Act, the Fund may elect to specially allocate any such tax to the applicable CRT, or other shareholder, and thus reduce such shareholder’s distributions for the year by the amount of the tax that relates to such shareholder’s interest in the Fund. The Fund has not yet determined whether such an election will be made. CRTs and other tax-exempt investors are urged to consult their tax advisers concerning the consequences of investing in the Fund.

Passive Foreign Investment Companies. A passive foreign investment company (“PFIC”) is any foreign corporation: (i) 75% or more of the gross income of which for the taxable year is passive income, or (ii) the average percentage of the assets of which produce or are held for the production of passive income is at least 50%. Generally, passive income for this purpose means dividends, interest (including income equivalent to interest), royalties, rents, annuities, the excess of gains over losses from certain property transactions and commodities transactions, and foreign currency gains. Passive income for this purpose does not include rents and royalties received by the foreign corporation from active business and certain income received from related persons.

Equity investments by the Fund in certain PFICs could potentially subject the Fund to a U.S. federal income tax or other charge (including interest charges) on the distributions received from the PFIC or on proceeds received from the disposition of shares in the PFIC. This tax cannot be eliminated by making distributions to Fund shareholders. However, the Fund may elect to avoid the imposition of that tax. For example, if the Fund is in a position to and elects to treat a PFIC as a “qualified electing fund” (i.e., make a “QEF election”), the Fund will be required to include its share of the PFIC’s income and net capital gains annually, regardless of whether it receives any distribution from the PFIC. Alternatively, the Fund may make an election to mark the gains (and to a limited extent losses) in its PFIC holdings “to the market” as though it had sold and repurchased its holdings in

those PFICs on the last day of the Fund's taxable year. Such gains and losses are treated as ordinary income and loss. The QEF and mark-to-market elections may accelerate the recognition of income (without the receipt of cash) and increase the amount required to be distributed by the Fund to avoid taxation. Making either of these elections therefore may require the Fund to liquidate other investments (including when it is not advantageous to do so) to meet its distribution requirement, which also may accelerate the recognition of gain and affect the Fund's total return. Dividends paid by PFICs will not be eligible to be treated as "qualified dividend income."

Because it is not always possible to identify a foreign corporation as a PFIC, the Fund may incur the tax and interest charges described above in some instances.

Foreign Currency Transactions. The Fund's transactions in foreign currencies, foreign currency-denominated debt obligations and certain foreign currency options, futures contracts and forward contracts (and similar instruments) may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency concerned. Any such net gains could require a larger dividend toward the end of the calendar year. Any such net losses will generally reduce and potentially require the recharacterization of prior ordinary income distributions. Such ordinary income treatment may accelerate Fund distributions to shareholders and increase the distributions taxed to shareholders as ordinary income. Any net ordinary losses so created cannot be carried forward by the Fund to offset income or gains earned in subsequent taxable years.

Foreign Taxation. Income received by the Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax conventions between certain countries and the U.S. may reduce or eliminate such taxes.

The RICs in which the Fund invests may invest in foreign securities. Dividends and interest received by a RIC's holding of foreign securities may give rise to withholding and other taxes imposed by foreign countries. Tax conventions between certain countries and the United States may reduce or eliminate such taxes. If the RIC in which the Fund invests is taxable as a RIC and meets certain other requirements, which include a requirement that more than 50% of the value of such RIC's total assets at the close of its respective taxable year consists of stocks or securities of foreign corporations, then the RIC should be eligible to file an election with the IRS that may enable its shareholders, including the Fund in effect, to receive either the benefit of a foreign tax credit, or a tax deduction, with respect to any foreign and U.S. possessions income taxes paid the by Fund, subject to certain limitations.

A "qualified fund of funds" is a RIC that has at least 50% of the value of its total interests invested in other RICs at the end of each quarter of the taxable year. If the Fund satisfied this requirement or if it meets certain other requirements, which include a requirement that more than 50% of the value of the Fund's total assets at the close of its taxable year consist of stocks or securities of foreign corporations, then the Fund should be eligible to file an election with the IRS that may enable its shareholders to receive either the benefit of a foreign tax credit, or a tax deduction, with respect to any foreign and U.S. possessions income taxes paid by the Fund, subject to certain limitations.

Non-U.S. Shareholders. Capital Gain Dividends are generally not subject to withholding of U.S. federal income tax. Absent a specific statutory exemption, dividends other than Capital Gain Dividends paid by the Fund to a Non-U.S. shareholder are subject to withholding of U.S. federal income tax at a rate of 30% (or lower applicable treaty rate) even if they are funded by income or gains (such as portfolio interest, short-term capital gains, or foreign-source dividend and interest income) that, if paid to a Non-U.S. Shareholder directly, would not be subject to withholding.

A regulated investment company is not required to withhold any amounts (i) with respect to distributions (other than distributions to a Non-U.S. shareholder (w) that does not provide a satisfactory statement that the beneficial owner is not a U.S. person, (x) to the extent that the dividend is attributable to certain interest on an obligation if the Non-U.S. Shareholder is the issuer or is a 10% shareholder of the issuer, (y) that is within a foreign country that has inadequate information exchange with the United States, or (z) to the extent the dividend is attributable to interest paid by a person that is a related person of the Non-U.S. Shareholder and the Non-U.S. Shareholder is a controlled foreign corporation) from U.S.-source interest income of types similar to those not subject to U.S. federal income tax if earned directly by an individual Non-U.S. Shareholder, to the

extent such distributions are properly reported as such by the Fund in a written notice to shareholders (“interest-related dividends”), and (ii) with respect to distributions (other than (a) distributions to an individual Non-U.S. Shareholder who is present in the United States for a period or periods aggregating 183 days or more during the year of the distribution and (b) distributions subject to special rules regarding the disposition of U.S. real property interests as described below) of net short-term capital gains in excess of net long-term capital losses to the extent such distributions are properly reported by the regulated investment company (“short-term capital gain dividends”). If the Fund invests in an underlying fund that pays such distributions to the Fund, such distributions retain their character as not subject to withholding if properly reported when paid by the Fund to Non-U.S. Shareholders.

The Fund is permitted to report such part of its dividends as interest-related or short-term capital gain dividends as are eligible, but is not required to do so. . These exemptions from withholding will not be available to Non-U.S. Shareholders of Funds that do not currently report their dividends as interest-related or short-term capital gain dividends.

In the case of shares held through an intermediary, the intermediary may withhold even if the Fund reports all or a portion of a payment as an interest-related or short-term capital gain dividend to shareholders. Non-U.S. Shareholders should contact their intermediaries regarding the application of these rules to their accounts.

Under U.S. federal tax law, a beneficial holder of shares who is a Non-U.S. Shareholder generally is not subject to U.S. federal income tax on gains (and is not allowed a deduction for losses) realized on the sale of shares of the Fund or on Capital Gain Dividends unless (i) such gain or dividend is effectively connected with the conduct of a trade or business carried on by such holder within the United States, (ii) in the case of an individual holder, the holder is present in the United States for a period or periods aggregating 183 days or more during the year of the sale or the receipt of the Capital Gain Dividend and certain other conditions are met, or (iii) the special rules relating to gain attributable to the sale or exchange of “U.S. real property interests” (“USRPIs”) apply to the Non-U.S. Shareholder’s sale of shares of the Fund or to the Capital Gain Dividend the Non-U.S. Shareholder received (as described below).

If a beneficial holder of Fund shares who is a Non-U.S. Shareholder has a trade or business in the United States, and the dividends are effectively connected with the beneficial holder’s conduct of that trade or business, the dividend will be subject to U.S. federal net income taxation at regular income tax rates.

If a beneficial holder of Fund shares who is a Non-U.S. Shareholder is eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax on a net basis only if it is also attributable to a permanent establishment maintained by that beneficial holder in the United States.

To qualify for any exemptions from withholding described above or for lower withholding tax rates under income tax treaties, or to establish an exemption from backup withholding, a Non-U.S. Shareholder must comply with special certification and filing requirements relating to its non-US status (including, in general, furnishing an applicable IRS Form W-8 or substitute form). Non-U.S. Shareholders in the Fund should consult their tax advisers in this regard.

A beneficial holder of Fund shares who is a Non-U.S. Shareholder may be subject to state and local tax and to the U.S. federal estate tax in addition to the federal tax on income referred to above.

Backup Withholding. The Fund generally is required to withhold and remit to the U.S. Treasury a percentage of the taxable distributions and redemption proceeds paid to any individual shareholder who fails to properly furnish the Fund with a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify to the Fund that he or she is not subject to such withholding. The backup withholding tax rate is 24%.

Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder’s U.S. federal income tax liability, provided the appropriate information is furnished to the IRS.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, if a shareholder recognizes a loss with respect to the Fund’s shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct

shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a regulated investment company are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all regulated investment companies. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

Shares Purchased through Tax-Qualified Plans. Special tax rules apply to investments through defined contribution plans and other tax-qualified plans. Shareholders should consult their tax advisers to determine the suitability of shares of the Fund as an investment through such plans, and the precise effect of an investment on their particular tax situation.

FATCA. Although the Fund does not allow accounts from foreign jurisdictions at this time, the following disclosure regarding FATCA is nonetheless potentially relevant to the Fund and its investors. Payments to a shareholder that is either a foreign financial institution ("FFI") or a non-financial foreign entity ("NFFE") within the meaning of the Foreign Account Tax Compliance Act ("FATCA") may be subject to a generally nonrefundable 30% withholding tax on: (a) income dividends paid by a Fund and (b) possibly in the future certain capital gain distributions and the proceeds arising from the sale of Fund shares paid by the Fund. FATCA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reports information relating to them. A Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of a Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

The foregoing is a general and abbreviated summary of the provisions of the Internal Revenue Code and the Treasury regulations in effect as they directly govern the taxation of the Fund and its shareholders. These provisions are subject to change by legislative and administrative action, and any such change may be retroactive. Shareholders are urged to consult their tax advisers regarding specific questions as to U.S. federal income, estate, or gift taxes, or foreign, state, local taxes or other taxes.

PRICING OF FUND SHARES

The price (net asset value) of the shares of the Fund is determined at the close of trading (normally 4:00 p.m., Eastern time) on each day the New York Stock Exchange is open for business (the Exchange is closed on weekends, most federal holidays, and Good Friday). For a description of the methods used to determine the net asset value (share price), see "Determination of Net Asset Value" in the Prospectus. The Board has designated the Adviser as "valuation designee." The Board maintains responsibility for fair value determinations under Rule 2a-5 of the 1940 Act, and oversees the valuation designee.

Equity securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the valuation designee believes such prices accurately reflect the fair value of such securities. Securities that are traded on an exchange or on the NASDAQ over-the-counter market are generally valued at the last quoted sale price. Lacking a last sale price an equity security is generally valued at the last bid price. If market prices are not available or, in the opinion of the valuation designee, market prices do not reflect fair value, or if an event occurs after the close of trading (but prior to the time the NAV is calculated) that materially affects fair value, the valuation designee may value the Fund's assets at their fair value according to policies approved by the Board.

Fixed income securities generally are valued by using prices provided by a pricing service approved by the Board. A pricing service utilizes electronic data processing techniques based on yield spreads relating to securities with similar characteristics to determine prices for normal institutional-size trading units of debt securities without regard to sale or bid prices. If the valuation designee decides that a price provided by the pricing service does not accurately reflect the fair market value of the securities, when prices are not readily available from a pricing service, or when restricted or illiquid securities are being valued, securities are valued at

fair value as determined in good faith by the valuation designee, which may rely upon a valuation committee, which includes a representative of the valuation designee, subject to review of the Board.

PURCHASES AND SALES THROUGH BROKER-DEALERS

The Fund may be purchased through broker-dealers and other intermediaries. The Fund has authorized one or more brokers to receive on its behalf purchase and redemption orders. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on each Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or, if applicable, a broker's authorized designee, received the order. Customer orders will be priced at the Fund's net asset value next computed after they are received by an authorized broker or the broker's authorized designee.

REDEMPTIONS IN-KIND

The Fund does not intend to redeem shares in any form except cash. However, if the redemption amount is over the lesser of \$250,000 or 1% of the Fund's net asset value, pursuant to an election under Rule 18f-1 under the 1940 Act by the Trust on behalf of the Fund, the Fund has the right to redeem your shares by giving you the amount that exceeds the lesser of \$250,000 or 1% of the Fund's net asset value in securities instead of cash. In the event that an in-kind distribution is made, a shareholder may incur additional expenses such as the payment of brokerage commissions on the sale or other disposition of the securities received from the Fund.

ANTI-MONEY LAUNDERING PROGRAM

The Trust has established an Anti-Money Laundering Compliance Program (the "Program") as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("USA PATRIOT Act"). To ensure compliance with this law, the Trust's Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program.

Procedures to implement the Program include, but are not limited to, determining that the Fund's transfer agent has established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity and a complete and thorough review of all new opening account applications. The Fund will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

CUSTODIAN

US Bank, N.A., 425 Walnut Street, Cincinnati, Ohio 45202 (the "Custodian") is the Trust's custodian as of the date of this SAI. The Huntington National Bank, 7 Easton Oval, Columbus, OH 43219, has been selected as the new custodian of the Trust and is anticipated to assume custodial duties in April 2024. The Custodian holds in safekeeping certificated securities and cash belonging to the Fund and, in such capacity, is the registered owner of securities held in book entry form belonging to the Fund. Upon instruction, the Custodian will receive and deliver cash and securities of the Fund in connection with Fund transactions and collect all dividends and other distributions made with respect to Fund portfolio securities. The Custodian will also maintain certain accounts and records of the Fund.

FUND SERVICES

Mutual Shareholder Services, LLC. ("MSS"), 8000 Town Centre Drive, Suite 400, Broadview Heights, OH 44147, acts as the Fund's transfer agent. MSS maintains the records of the shareholder's account, answers shareholders' inquiries concerning their accounts, processes purchases and redemptions of the Fund's shares, acts as dividend and distribution disbursing agent and performs other transfer agent and shareholder service functions. MSS receives an annual fee from the Adviser of \$11.50 per shareholder (direct shareholders) or \$8.00 per shareholder (FundSERV accounts) (subject to a minimum monthly fee of \$775) for these transfer agency services.

In addition, MSS provides the Fund with fund accounting services, which includes certain monthly reports, record-keeping and other management-related services. For its services as fund accountant, MSS receives an annual fee from the Adviser based on the average value of the Fund. These fees are: from \$0 to \$25 million in assets the annual fee is \$22,200, from \$25 million to \$50 million in assets the annual fee is \$31,700, from \$50 million to \$75 million in assets the annual fee is \$37,450, from \$75 million to \$100 million in assets the annual fee is \$43,200, from \$100 million to \$125 million in assets the annual fee is \$48,950, from \$125 million to \$150 million in assets the annual fee is \$54,700, from \$150 million to \$200 million in assets the annual fee is \$60,450, from \$200 million to \$300 million in assets the annual fee is \$60,450 plus .01% on assets greater than \$200 million and above \$300 in assets the annual fee is \$70,450 plus .005% on assets greater than \$300 million (subject to certain waivers when assets are below \$10 million). For the fiscal year ended November 30, 2021, the Adviser paid MSS \$42,571 for transfer agent and account services. For the fiscal year ended November 30, 2022, the Adviser paid MSS \$38,605 for transfer agent and account services. For the fiscal year ended November 30, 2023, the Adviser paid MSS \$37,724 for transfer agent and account services.

Premier Fund Solutions, Inc. (“PFS”), 1939 Friendship Drive, Suite C, El Cajon, CA 92020, provides the Fund with administrative services, including regulatory reporting and necessary office equipment, personnel and facilities. PFS receives a monthly fee from the Adviser equal to an annual rate of 0.07% of the Fund's assets under \$200 million, 0.05% of the next \$500 million of the Fund's average daily net assets, and 0.03% of the average daily net assets of the Fund thereafter (subject to a minimum monthly fee of \$2,500 and any waivers). Certain officers and a Trustee of the Trust are also officers of PFS. For the fiscal year ended November 30, 2021, the Adviser paid PFS \$39,363 for administrative services. For the fiscal year ended November 30, 2022, the Adviser paid PFS \$31,740 for administrative services. For the fiscal year ended November 30, 2023, the Adviser paid PFS \$30,000 for administrative services.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The firm of Cohen & Company, Ltd., 342 N. Water St., Suite 830, Milwaukee, WI 53202, has been selected as the independent registered public accounting firm for the Fund for the fiscal year ending November 30, 2024. The independent registered public accounting firm performs an annual audit of the Fund's financial statements and provides financial, tax and accounting consulting services as requested.

DISTRIBUTOR

Arbor Court Capital, LLC (the “Distributor”), located at 8000 Towne Centre Drive, Broadview Heights, Ohio 44147, serves as the principal underwriter of the Fund's shares. The Distributor is a broker-dealer and acts as the Fund's principal underwriter in a continuous public offering of the Fund's shares. The Distributor and MSS are affiliates.

LEGAL COUNSEL

Practus, LLP, 11300 Tomahawk Creek Parkway, Suite 310, Leawood, KS 66211, serves as legal counsel for the Trust and Fund.

DISCLOSURE OF PORTFOLIO HOLDINGS

The Fund is required to include a schedule of portfolio holdings in its annual and semi-annual reports to shareholders, which is sent to shareholders within 60 days of the end of the second and fourth fiscal quarters and which is filed with the Securities and Exchange Commission (the “SEC”) on Form N-CSR within 70 days of the end of the second and fourth fiscal quarters. The Fund also is required to file a schedule of portfolio holdings with the SEC on Form N-PORT within 60 days of the end of the first and third fiscal quarters. The Fund must provide a copy of the complete schedule of portfolio holdings as filed with the SEC to any shareholder of the Fund, upon request, free of charge. This policy is applied uniformly to all shareholders of the Fund without regard to the type of requesting shareholder (i.e., regardless of whether the shareholder is an individual or institutional investor). Information contained in annual and semi-annual reports mailed to shareholders, as well as information filed with the SEC on Form N-PORT for the first and third fiscal quarters and information posted on the Fund's website, is public information. All other information is non-public information.

The Fund has an ongoing relationship with third party servicing agents to release portfolio holdings information on a daily basis in order for those parties to perform their duties on behalf of the Fund. These third party servicing agents are the Adviser, Transfer Agent, Fund Accounting Agent, Distributor, Administrator and Custodian. The Fund also may disclose portfolio holdings, as needed, to auditors, legal counsel, proxy voting services (if applicable), pricing services, printers, parties to merger and reorganization agreements and their agents, and prospective or newly hired investment advisors or sub-advisors. The Fund's Chief Compliance Officer must authorize all disclosures of portfolio holdings. The lag between the date of the information and the date on which the information is disclosed will vary based on the identity of the party to whom the information is disclosed. For instance, the information may be provided to auditors within days of the end of an annual period, while the information may be given to legal counsel or prospective sub-advisors at any time. This information is disclosed to all such third parties under conditions of confidentiality. "Conditions of confidentiality" include (i) confidentiality clauses in written agreements, (ii) confidentiality implied by the nature of the relationship (e.g., attorney-client relationship), (iii) confidentiality required by fiduciary or regulatory principles (e.g., custody relationships) or (iv) understandings or expectations between the parties that the information will be kept confidential. The Fund also releases information to Morningstar, Thomson Reuters, Bloomberg, and Factset on a delayed basis after the information has been filed with the SEC or otherwise made public. The Fund believes, based upon its size and history, that these are reasonable procedures to protect the confidentiality of the Fund's portfolio holdings and will provide sufficient protection against personal trading based on the information.

The Fund is prohibited from entering into any arrangements with any person to make available information about the Fund's portfolio holdings without the specific approval of the Board. The Adviser must submit any proposed arrangement pursuant to which the Adviser intends to disclose the Fund's portfolio holdings to the Board, which will review such arrangement to determine (i) whether it is in the best interests of Fund shareholders, (ii) whether the information will be kept confidential and (iii) whether the disclosure presents a conflict of interest between the interests of Fund shareholders and those of the Adviser, or any affiliated person of the Fund, or the Adviser. Additionally, the Fund, the Adviser, and any affiliated persons of the Adviser, are prohibited from receiving compensation or other consideration, for themselves or on behalf of the Fund, as a result of disclosing the Fund's portfolio holdings.

FINANCIAL STATEMENTS

The financial statements and report of the independent registered public accounting firm required to be included in the Statement of Additional Information are incorporated herein by reference to the Fund's Annual Report to Shareholders for the fiscal year ended November 30, 2023. You can receive free copies of reports, request other information and discuss your questions about the Fund by contacting the Trust directly at:

PROXY VOTING POLICIES

The Trust and the Adviser each have adopted proxy voting policies and procedures reasonably designed to ensure that proxies are voted in shareholders' best interests. As a brief summary, the Trust's policy delegates responsibility regarding proxy voting to the Adviser subject to the supervision of the Board. The Adviser votes the Fund's proxies in accordance with its proxy voting policy, subject to the provisions of the Trust's policy regarding conflicts of interests. The Trust's Proxy Voting Policy and Procedure is attached as Exhibit A. The Adviser's Proxy Voting Policy and Procedure is attached as Exhibit B.

The Trust's policy provides that, if a conflict of interest between the Adviser and its affiliates and the Fund arises with respect to any proxy, the Adviser must fully disclose the conflict to the Board and vote the proxy in accordance with the Board's instructions. The Board shall make the proxy voting decision that in its judgment, after reviewing the recommendation of the Adviser, is most consistent with the Adviser's proxy voting policies and in the best interests of Fund shareholders.

MORE INFORMATION. The actual voting records relating to portfolio securities during the most recent 12-Month period ended June 30 will be available after August 31 without charge, upon request by calling toll-free, 1-888-897-4821 or by accessing the SEC's website at <http://www.sec.gov>. In addition, a copy of the Fund's proxy voting policies and procedures are also available by calling 1-888-897-4821 and will be sent within three business days of receipt of a request.

EXHIBIT A

PFS FUNDS

PROXY VOTING POLICY AND PROCEDURE

PFS Funds (the "Trust") is a registered open-end investment company under the Investment Company Act of 1940, as amended ("1940 Act"). The Trust offers multiple series (each a "Fund" and, collectively, the "Funds"). Effective April 14, 2003, the Securities and Exchange Commission ("SEC") adopted rule and form amendments under the Securities Act of 1933, the Securities Exchange Act of 1934, and the 1940 Act to require registered management investment companies to provide disclosure about how they vote proxies for their portfolio securities (collectively, the rule and form amendments are referred to herein as the "Proxy Rule").

Consistent with its fiduciary duties and pursuant to the Proxy Rule, the Board of Trustees of the Trust (the "Board") has adopted this proxy voting policy on behalf of the Trust (the "Policy") to reflect its commitment to ensure that proxies are voted in a manner consistent with the best interests of the Funds' shareholders. While decisions about how to vote must be determined on a case-by-case basis, proxy voting decisions will be made considering these guidelines and following the procedures recited herein. This policy may be amended, from time to time, as determined by the Board.

The Proxy Rule requires that each series of shares of the Trust listed on Exhibit A, attached hereto, (each a "Fund"), disclose the policies and procedures used to determine how to vote proxies for portfolio securities. The Proxy Rule also requires each Fund to file with the SEC and to make available to their shareholders the specific proxy votes cast for portfolio securities.

Delegation of Proxy Voting Authority to Fund Adviser

The Board believes that the investment adviser (or sub-adviser as the case may be) of each Fund (each an "Adviser"), as the entity that selects the individual securities that comprise its Fund's portfolio, is the most knowledgeable and best-suited entity to make decisions on how to vote proxies of portfolio companies held by that Fund. Therefore, subject to the oversight of the Board, the Trust shall defer to and rely on the Adviser of each Fund to make decisions on how to cast proxy votes on behalf of such Fund.

The Trust hereby designates the Adviser of each Fund as the entity responsible for exercising proxy voting authority with regard to securities held in the Fund's investment portfolio. Consistent with its duties under this Policy, each Adviser shall monitor and review corporate transactions of corporations in which the Fund has invested, obtain all information sufficient to allow an informed vote on all proxy solicitations, ensure that all proxy votes are cast in a timely fashion, and maintain all records required to be maintained by the Fund under the Proxy Rule and the 1940 Act. Each Adviser shall perform these duties in accordance with the Adviser's proxy voting policy (each an "Adviser's Voting Policy"), a copy of which shall be presented to the Board for its review. Each Adviser shall promptly provide to the Board updates to its proxy voting policy as they are adopted and implemented.

The Board, including a majority of the independent trustees of the Board, shall approve each Adviser's Voting Policy as it relates to each Fund. The Board shall also approve any material changes to the Adviser's Voting Policy no later than four (4) months after adoption by the Adviser.

Conflict of Interest Transactions

In some instances, an Adviser may be asked to cast a proxy vote that presents a conflict between the interests of a Fund's shareholders, and those of the Adviser or an affiliated person of the Adviser. In such case, the Adviser is instructed to abstain from making a voting decision and to forward all necessary proxy voting materials to the Trust to enable the Board to make a voting decision. In addition, provided the Adviser is not affiliated with a Fund's principal underwriter or an affiliated person of the principal underwriter and neither the Fund's principal underwriter nor an affiliated person of the principal underwriter has influenced the Adviser with respect to a matter to which the Fund is entitled to vote, a

vote by the Adviser shall not be considered a conflict between the Fund's shareholders and the Fund's principal underwriter or affiliated person of the principal underwriter.

When the Board is required to make a proxy voting decision, only the Trustees without a conflict of interest with regard to the security in question or the matter to be voted upon shall be permitted to participate in the decision of how the Fund's vote will be cast. In the event that the Board is required to vote a proxy because an Adviser has a conflict of interest with respect to the proxy, the Board will vote such proxy in accordance with the Adviser's proxy voting policy, to the extent consistent with the shareholders' best interests, as determined by the Board in its discretion. The Board shall notify the Adviser of its final decision on the matter and the Adviser shall vote in accordance with the Board's decision.

Oversight of the Advisers' Proxy Voting Compliance Activities

Each Adviser shall present to the Trust's administrator a quarterly report summarizing its proxy voting compliance activities for the preceding quarter. The administrator shall review the report to ensure compliance with the Proxy Rule and with this Policy, and shall determine the steps and procedures, if any, that must be undertaken or adopted by the Trust and any Adviser to ensure further compliance with the relevant laws.

Availability of Proxy Voting Policy and Records Available to Fund Shareholders

Each Fund shall disclose this Policy, or a description of the Policy, to its shareholders by including it as an appendix to its Statement of Additional Information ("SAI") on Form N-1A. Each Fund will also notify its shareholders in the Fund's shareholder reports that a description of this Policy is available upon request, without charge, by calling a specified toll-free telephone number. The Fund will send this description of the Policy within three business days of receipt of any shareholder request, by first-class mail or other means designed to ensure equally prompt delivery.

In accordance with the Proxy Rule, each Adviser shall provide a complete voting record, for each series of the Trust for which it acts as adviser, to the Trust's administrator within 15 days following the end of each calendar quarter. The Trust's administrator will file Form N-PX with the SEC on an annual basis with the Securities and Exchange Commission no later than August 31st of each year.

Each Fund, subject to oversight of the Board, shall disclose the Fund's complete proxy voting record to its shareholders on Form N-PX, as required by the Proxy Rule, for the twelve-month period ended June 30th. Each Fund shall disclose the following information on Form N-PX for each matter relating to a portfolio security considered at any shareholder meeting held during the period covered by the report and with respect to which to the Fund was entitled to vote: (i) The name of the issuer of the portfolio security; (ii) The exchange ticker symbol of the portfolio security (if available through reasonably practicable means); (iii) The Council on Uniform Security Identification Procedures ("CUSIP") number for the portfolio security (if available through reasonably practicable means); (iv) The shareholder meeting date; (v) A brief identification of the matter voted on; (vi) Whether the matter was proposed by the issuer or by a security holder; (vii) Whether the Fund cast its vote on the matter; (viii) How the Fund cast its vote (e.g., for or against proposal, or abstain; for or withhold regarding election of directors); and (ix) Whether the Fund cast its vote for or against management.

Each Fund shall make its proxy voting record available to shareholders either upon request or by making available an electronic version on or through the Fund's website, if applicable. If the Fund discloses its proxy voting record on or through its website, the Fund shall post the information disclosed in the Fund's most recently filed report on Form N-PX on the website beginning the same day it files such information with the SEC.

Each Fund shall also include in its annual reports, semi-annual reports and SAI a statement that information regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30th is available (1) without charge upon request, by calling a specified toll-free (or collect) telephone number, or (if applicable) on or through the Fund's website at a specified

Internet address; and (2) on the SEC's website. If the Fund discloses that its proxy voting record is available by calling a toll-free (or collect) telephone number, it shall send the information disclosed in the Fund's most recently filed report on Form N-PX within three business days of receipt of a request for this information, by first-class mail or other means designed to ensure equally prompt delivery.

If a Fund has a website, the Fund may post of copy of its Adviser's proxy voting policy and this Policy on such website. A copy of such policies and of each Fund's proxy voting record shall also be made available, without charge, upon request of any shareholder of the Fund, by calling the applicable Fund's toll-free telephone number as printed in the Fund's prospectus. The Trust's administrator shall reply to any Fund shareholder request within three business days of receipt of the request, by first-class mail or other means designed to ensure equally prompt delivery.

TAYLOR FRIGON CAPITAL MANAGEMENT, LLC

PROXY VOTING POLICY

RULE 206(4)-6

In accordance with the requirements of Rule 206(4)-6 under the Investment Advisers Act of 1940 (the “Advisers Act”), Taylor Frigon Capital Management, LLC (“TFCM”) has adopted the following proxy voting policy with respect to those assets for which a client has vested TFCM with discretionary investment management authority (the “assets”).

TFCM’s Policy

Unless a client directs otherwise, in writing, TFCM shall be responsible for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, and tender offers. However, the client shall maintain exclusive responsibility for all legal proceedings or other type events pertaining to the assets, including, but not limited to, class action lawsuits. TFCM and/or the client shall correspondingly instruct each custodian of the assets to forward to TFCM copies of all proxies and shareholder communications relating to the assets. Absent mitigating circumstances and/or conflicts of interest (to the extent any such circumstance or conflict is presented, if ever, information pertaining to how TFCM addressed any such circumstance or conflict shall be maintained by TFCM - see examples below), it is TFCM’s general policy to vote proxies consistent with the recommendation of the senior management of the issuer. TFCM shall monitor corporate actions of individual issuers and investment companies consistent with TFCM’s fiduciary duty to vote proxies in the best interests of its clients. With respect to individual issuers, TFCM may be solicited to vote on matters including corporate governance, adoption or amendments to compensation plans (including stock options), and matters involving social issues and corporate responsibility. With respect to investment

companies (e.g., mutual funds), TFCM may be solicited to vote on matters including the approval of advisory contracts, distribution plans, and mergers. TFCM shall maintain records pertaining to proxy voting as required pursuant to Rule 204-2 (c)(2) under the Advisers Act.

Copies of Rules 206(4)-6 and 204-2(c)(2) are available upon written request. In addition, information pertaining to how TFCM voted on any specific proxy issue is also available upon written request. Any questions regarding TFCM's proxy voting policy shall be directed to Jennifer O. Hall, Chief Compliance Officer of TFCM.

Mitigating Circumstances/Conflicts of Interest

The following are examples of mitigating circumstances and/or conflicts of interest: (1) an adviser or its affiliate may manage a pension plan, administer employee benefit plans, or provide brokerage, underwriting, insurance, or banking services to a company whose management is soliciting proxies; (2) an adviser may have business or personal relationships with participants in proxy contests, corporate directors, or candidates for directorships, etc.; (3) an adviser has a business relationship not with the company but with a proponent of a proxy proposal that may affect how it casts votes on client securities; and (4) senior management's recommendation, in the opinion of TFCM, is not in the best interests of the client.

Implementation/Adoption

Jennifer O. Hall, Chief Compliance Officer, or her designee shall be primarily responsible for determining how client proxies are voted and recording how TFCM addressed any mitigating circumstance or conflict of interest. Mrs. Hall shall be primarily responsible for the ongoing review and evaluation of TFCM's proxy voting policy and corresponding compliance with the requirements of Rules 206(4)-6 and 204-2(c)(2). Copies of the Rules are attached and made a part hereof.

The above Proxy Voting Policy has been adopted by Taylor Frigon Capital Management, LLC on this 29th day of April, 2013.
